

May 11, 2009

Dear Parents,

As you may be aware, Hisaw & Associates, the Perry Elementary construction contractor, has ceased operations. Because of these new developments, the projected opening date of Annette Perry Elementary School is potentially in jeopardy. At this time, Mansfield ISD is working closely with the Liberty Mutual Surety to move forward on the project.

Everyone currently involved is committed to finishing construction on Perry Elementary and opening the campus to continue to meet the needs of our community. The administration is currently researching all available options and will provide updates for parents as soon as the District has determined the next appropriate step and has new information.

A representative from MISD Administration will attend the Perry Elementary parent meeting scheduled for Tuesday, May 19 at 7 p.m. They will update parents on construction of the school and answer questions.

Please direct questions on this matter to pio@mansfieldisd.org.

Regards,
