Our lesson program is based on levels of performance. As each swimmer passes a level of performance, they are immediately promoted to the next. Children advance at their own pace, depending on his/her physical skill and maturity.

Parents, please make sure your child uses the restroom before their lesson begins. You may escort your swimmer onto the deck no more than **5 minutes before your child's lesson begins**. Once the class begins, parents will be asked to leave the pool deck, and observe the class from our second floor seating area. Parents may return to the deck once the class is finished.

On the first day of class, we will evaluate your child to ensure he/she is in the appropriate level. There will be some movement of instructors and students in order to maximize lesson effectiveness.
