

Adding News and Scores to a Website

Bring up the page that you would like to add news or scores and hit Edit Page button.

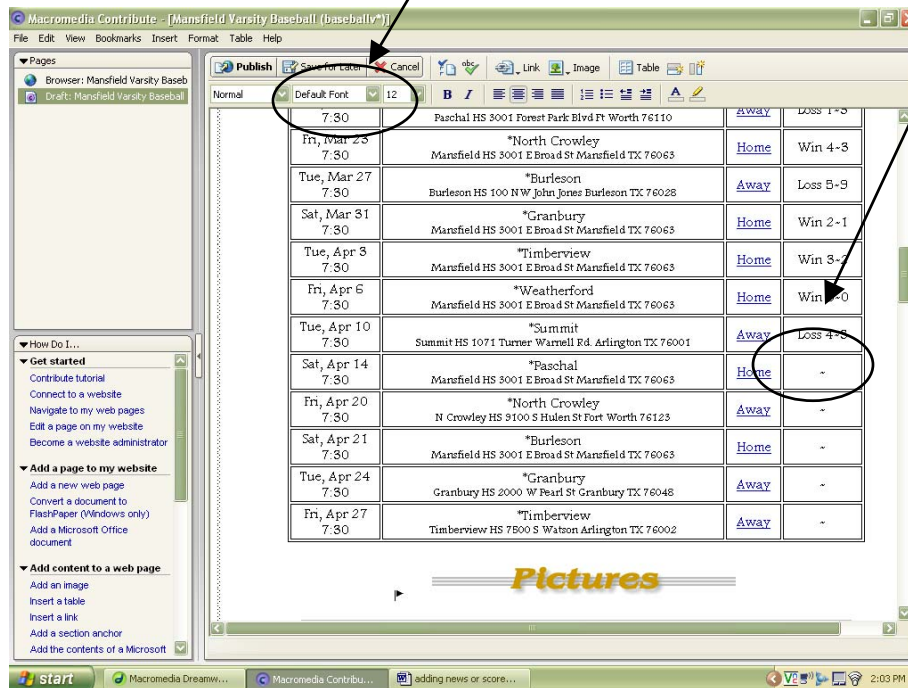

To add news, click in the area under the news title. Pick the font and size that you want. Type in the information that you you want to appear. If the font you want is not in the list, follow the instructions for adding fonts which is located on the bottom of this instruction sheet.

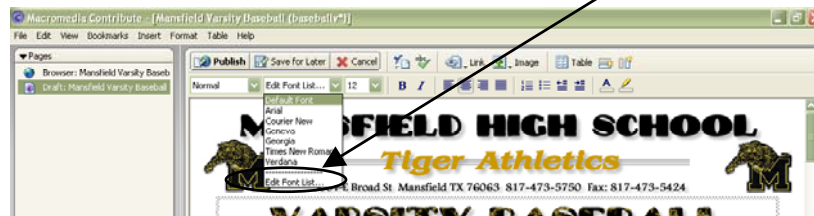

When you finished making changes, hit the Publish button and the changes will be posted.

To add scores, bring up the page that you want to add scores to. Hit Edit Page. Find the game that you want to add the score to, pick the font and size, click in the Scores column, and add scores. Hit the Publish button when you are ready to post the scores.

If the font you want to use is not in the list, click on the Edit font list.

This screen will appear. Find the font you want to add, highlight it, and hit the arrow to add the font to the Chosen Fonts list. Hit Ok and the font will be added to your list. Footlight MT Light is the font used on the schedules.
