On behalf of our teachers and staff, I would like to welcome you to Jobe Middle School's webpage. I hope that you find this page to be informative and provide needed information to you regarding our school.

The 2009-2010 school will be an exciting year for our school community, with challenges to be met and opportunities to be taken. As the principal of the *brand new* JMS, I am proud to announce that there are many wonderful initiatives being developed and implemented at our school. Initiatives that will provide your children with the best possible education, one that not only addresses academics, but also provides learning opportunities that will promote the development of well rounded, global thinkers.

Educating our children is a monumental task, one that requires parents and teachers working together and investing in our children, our future. Every parent is asked to volunteer at our school in some capacity this year. We cannot do this job alone, and need our parents' help and involvement to ensure that our students reach their full potential.

We strive to create a supportive, welcoming environment where staff, students, parents, and community members work together to ensure the best learning opportunities possible for our children. Our faculty includes a group of highly competent, dedicated teachers with the singular goal of providing each child with an outstanding learning program designed to promote intellectual, social, and emotional growth. We look forward to a great year and building strong relationships with our parents and community.

With Great Expectations,

Demetrus Liggins, Principal
Jobe Middle School
