

Third Grade News

April/May

There are lots of exciting events coming up in the month of April and May. Our Spring Carnival is coming up soon. Don't forget to have your student bring in the item requested for the carnival. The end of April is the Reading and Math TAKS test. We have been warming up for the TAKS and we are prepared to wrestle the test down! We always have a healthy competition with fourth grade to see which grade scores higher. Third grade has been victorious for the past three years and we plan on continuing our winning streak. To show his support, our principal, Mr. Manns, has agreed to dress up in a sumo wrestler suit for a whole day and wrestle our gym teacher Mr. Haynes.

Third grade is taking a field trip to the Mansfield ISD Natatorium on May 5-11. Please check your calendar to verify dates because different classes will be going on different days.

Here are some more upcoming fun days in May: Field day, the "Yankee Doodle" History play, Career Day, the Talent show, and our field trip to the Aquarium.

Mark Your Calendar

4/10 Spring Carnival (4-7pm)
4/27 Math TAKS
4/27 Reading TAKS
5/5-5/11 Water Safety Field Trip
5/14 Field Day
5/18 "Yankee Doodle" play (9am)
5/21 Career Day
5/24 Talent Show
5/28 Field Trip to Aquarium
5/31 Student Holiday

Math Mania

We have been learning about lots of exciting things in math. We have been exploring time and temperature. Think about how many times a day you think about what time it is or what the temperature will be outside. Encourage your child to read any clock or thermometer that you pass.

Language Laboratory

We will be focusing more on writing in Language Arts. Not only will we be practicing all the conventions of writing such as using capitalization and punctuation but we will be focusing on making all coherent stories that make sense and are enjoyable to read.

Social Studies Success

We will be learning and practicing all of the state capitals. Our "Yankee Doodle" play is approaching soon and we will be rehearsing for a great show.

Science Sensation

We will soon be learning about the Rainforest in Science. This will be an exciting exploration that will capture your student's imagination.
