

# 3rd Grade Newsletter

2<sup>nd</sup> Six Weeks

What's happening in 3<sup>rd</sup> Grade?

## Math

In math we will be focusing on multiplication. Start practicing at home to get ahead. There is a tasty reward for knowing your facts - other than a good grade, that is. As always, we will touch briefly on several different math topics daily through the Math Wall and spiral review. Any math you can incorporate into your daily lives would be great! Continue to remind your child to always, always, always use math strategies on all math assignments.

## Science

**In science, we are studying simple machines.**

## Dates to Remember

October 12 – Parent/Teacher Conference Day  
October 17 – Roberta Tipps Fall Carnival  
October 30 – Field Trip to Cowboy Stadium

## Language Arts

This six weeks continue to complete reading logs to turn in on Mondays. There will be weekly spelling homework and tests on Fridays. We will be working on writing compositions that include hooks, main ideas and supporting details. We will also cover different kinds of text, author's purpose, time order words, prepositions, and story elements as well as reading strategies.

## Social Studies

In social studies, we will focus on map skills. We will also begin working on social studies newspapers.

## Donations Needed!

Don't forget to send in an item or two for your class' carnival basket. PTA still needs donations of soda and candy as well. Thanks!

**Please remember to check your child's binder and planner each night for homework, reading log and important school information.**
