

General Computer Questions

How can I select what printer I want to print to?

1. Create or open any document. When you are ready to print, click on File, and then click on Print.

2. A Print window will appear. Click on the down arrow to the right of the printer name.

3. A list of the available/installed printers will appear. Click on the printer that you want to send your document to and then click the OK button. The document will print.
