

ELECTRONIC DEVICES AND TECHNOLOGY RESOURCES

MISD STUDENT ACCEPTABLE USE POLICY

You are being given access to the District's technology resources, meaning electronic communication systems and electronic equipment. It is important that you read the applicable District policies and agreement form. [See policy CQ and provisions on use of electronic media in the student handbook] Please contact Dr. Sean Scott, Assistant Superintendent of Technology and Information Services at 817.299.1980, if you have questions or need help understanding this material.

Inappropriate use of the District's technology resources may result in suspension or revocation of the privilege of using these resources, as well as other disciplinary or legal action, in accordance with applicable District policies-and laws.

As a user of the District's technology resources, you will be able to access:

- An unlimited number of databases, libraries, and resources;
- The Internet and other electronic information systems/networks, which can be used to communicate with schools, colleges, organizations, and individuals around the world; and
- Shared electronic equipment, which may have stored temporary Internet and electronic files of other users.

Please note that the Internet is a network of many types of communication and information networks. It is possible that you may run across some material you might find objectionable. While the District will use filtering technology to restrict access to such material, it is not possible to absolutely prevent such access. It will be your responsibility to follow the rules for appropriate use.

If you are being issued a District technology device that can be used off campus, you will be given additional materials addressing the proper use, care, and return of these devices.

CIPA COMPLIANCE: MISD is enforcing a policy of Internet safety for minors that includes monitoring the online activities of minors and the operation of a technology

protection measure with respect to any of its computers with Internet access that protects against access through such computers to visual depictions that are

- (I) obscene;
- (II) child pornography; or
- (III) harmful to minors; and

MISD is enforcing the operation of such technology protection measure during any use of such computers by minors.

As part of its Internet safety policy, Mansfield ISD is educating minors about appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms and cyber bullying awareness and response. The K-8 Technology Applications curriculum framework is found on the MISD Educational Technology website at <http://edtech.mansfieldisd.org/>

Bring Your Own Device

As part of this plan, MISD will now allow students the opportunity to bring their own personal mobile devices to school for educational purposes. With teacher approval, students may use their devices to access and save information from the Internet, collaborate with other learners and utilize the productivity tools available to them.

Student Responsibility

Mansfield ISD will provide you with the opportunity to use personal electronic devices for educational purposes. It will be your responsibility to follow the rules for safe and responsible use. Access to MISD's network is a privilege. If you fail to abide by these rules, you may be subject to the removal of this privilege and other consequences. You may bring your mobile device to school at your own risk. The District will not be held responsible for lost, stolen or misplaced devices.
