

**Charter**  
**Long Range Technology Plan 2021-2025**  
February 5, 2021

**Purpose**

Technology has dramatically shaped our society and recent events in our society has reshaped the way we use technology. With the onset of the pandemic in 2020, technology has played a significant role in keeping education moving forward despite illnesses, quarantines, and mandated shutdowns. Each year billions of dollars are provided school districts through various Federal, state, and local governments to buy technology equipment and provide internet access for school districts. Additional funds have been allocated this year to buy equipment and provide services necessary to move classrooms to a virtual environment. It is important that all funds are spent in a manner consistent with the goals of the district without creating equity gaps or significant future financial burdens. A long-range plan is a tool best used to establish the goals of the district while providing the framework to keep technology up to date, readily available, safe, secure, and reliable.

To begin the process of developing the district’s long range technology plan, a committee consisting of stakeholders from the students, staff, and community will be convened to study the current state of technology and the anticipated future needs of technology to support education.

**Responsibilities of Committee**

Jeffrey Brogden, Chief Technology Officer and Shawntee’ Cowan, Director of Technology will chair the committee.

**Long Range Technology Plan**
