The employee's department director, supervisor, and/or head custodian assign all daily job responsibilities.

Hours of Employment

Hours of employment are determined by the needs of each individual campus or department and **can be changed at any time if necessary**. All changes will be determined and implemented by the department director or the Associate Superintendent of Facilities and Bond Programs.

Failure to respond to the emergency or other scheduled work times by the employee may lead to disciplinary action and possible recommendation for termination. The immediate supervisor and/or department director will be notified of the emergency as soon as possible.

Emergency Overtime

It is the responsibility of the person accepting the request for emergency overtime to maintain a record of the name and position of the person who telephoned in the emergency as well as the time the phone call was received.

If there is a holiday during the week, the holiday hours will count towards the 40-hour work week requirement, in order to be paid at the overtime rate. If the time exceeds two hours, then overtime pay will be earned for the time worked, if the employee has exceeded 40 hours during the week. If the employee did not work 40 hours during the week, the employee will be paid two hours of straight time pay at their regular pay rate. No additional hours for another emergency can be charged for the same two-hour period of time that has already been used for a previous emergency.

Note: It is the responsibility of the assigned driver to ensure that these forms are in the vehicle at all times.

Custodial Services Objective

The primary objective of good custodial services is to provide a clean, healthy, safe, and attractive environment for the education of the students and the enjoyment of the employees of and the visitors to the venues occupied by the Mansfield Independent School District (MISD). Good housekeeping requires efficient and effective operation, cleaning, and maintenance of the district's schools and office buildings and their surrounding grounds. Good housekeeping reflects positively on the overall image of a school. It is a function that is vital to the operation of the school system.

What Is a Head Custodian?

The Head Custodian is the direct representative of the Assistant Superintendent of Facilities and Bond and is in charge of and oversees the custodial staff. The head custodian ensures that assigned work schedules are followed and that the staff performs all normal and specially assigned tasks. The head custodian can expect to have an assigned schedule to complete, in addition to supervisory responsibilities.

The head custodian is responsible for ensuring that the building is properly secured.

The head custodian maintains daily communication with the Supervisor to ensure that the district Supervisor is aware of unusual activities or requirements and to receive any special instructions from the Supervisor.

What Is a Custodian?

The custodian is the backbone of the housekeeping program. Custodians provide a clean and healthy facility for student learning and staff support. The word custodian is derived from the word custody (i.e., of the building.)

The custodian is considered a trained professional. Really outstanding custodians have several characteristics that set them apart:

- They not only perform job duties well but also understand and think about how these duties affect all other activities in the school.
- They work efficiently, knowing the proper techniques to use in accomplishing each task while wisely using cleaning products, equipment, and time.
- They have good attendance and can be counted on to be at work and on time unless they are really sick or an emergency arises. If they are going to be absent, they give notification as early as possible.
- They work safely, properly using chemicals and machines and moving heavy objects correctly.
- They have pride—pride in their work, school, MISD, and custodial team.
- They promote pride in their school and in MISD.

Communications:

As a rule, custodians do not converse with students or faculty except for: Emergencies, answering questions, and informing them of immediate needs. The Head Custodian, Lead Custodian, or the Day Custodian has the responsibility to communicate with the Principal, to respond and coordinate the custodial efforts for the support of the educational program.

Guidelines:

Students

1. No custodian shall place hands upon a student, unless necessary in the event of a life-threatening emergency.
2. No custodian has authority to direct or discipline a student in any way. He/she should take complaint or reports to the principal of the school.
3. The custodian should be courteous to the children, but avoid being overly friendly.

Teachers

1. The custodian should be courteous and impartial with all teachers, but should avoid over-friendliness. He/she should avoid undue conversations during the work period keeping in mind that others have to work.

Custodial Expectations

Employees are expected to report to the Head Custodian ready to work, at the correct time each workday. Employees should remain at their assigned workstation performing duties until the scheduled departing time, but also maintain a team-player approach to assist other areas as directed by head custodian.

Visitors

Custodial staff are not to have visitors in the school district buildings before or after school hours.

Transfers

Transfers within the department, or from one school to another, are subject to the needs of the department and the discretion of the supervisor. Actions resulting in transfer may be initiated by either the employee or a supervisor. The employee that is requesting a transfer needs to initiate the request. Request is to be sent to the Director of Custodial Services.

Complaints

All problems should be resolved at the lowest level possible. If you cannot resolve a problem with your immediate supervisor, the next step is to set up your appointment to talk with The Director of Custodial Services. You must follow the chain of command.

Lost and Found Items

Items of value (money or electronics) found on the floor inside a classroom while cleaning should be placed on the teacher's desk. If items of value are found in a restroom or hallway, take items to the Head Custodian to be placed in a secure area until it can be turned into the office the following day. All other items such as clothing should be left in the classroom or taken to the school lost and found.

Securing Doors

The District shall ensure that exterior doors of all instructional facilities are closed and locked, such that visitors can only enter a facility through primary entrances.

In addition, the District establishes the following:

1. Classroom doors shall be locked at all times during the school day.
2. Devices to prop open or impair the locking of a door shall not be used at any time.
3. Garage/roll-up type doors may remain unlocked and open only while they are in use.

Violations of the District's safety policy and administrative regulations regarding locking doors may result in disciplinary action, up to and including termination of employment.

Custodial Duties

The duties and responsibilities of custodians may vary according to the size and nature of the school. In general, the duties of the custodian shall include but not be limited to:

1. All housekeeping factions such as:

18. Some duties are assigned to employees on a rotating basis. This is done to encourage the staff to be more involved in the daily operations of the job and to give everyone the opportunity to learn new things.

As a custodial employee, you have a responsibility to make sure that the area you work in is kept clean and safe.

All custodial staff will have those specific duties. These duties are listed on a schedule that lets you know what is done daily, weekly, monthly and yearly. There may be times when your hours may be changed to provide better custodial services to our campuses. For example, you may need to come in on weekends, come in early for special projects, holidays, etc. There are also times when the Head Custodians asks for volunteers to help with some duties. Duties such as:

1. Helping to pick up supplies
2. Carry the radio
3. Attend staff, training meetings
4. Train a new employee and or participate in interviews

Teamwork

Even though you may be working in one particular area, it is important that you learn to work with all the staff on your campuses. You may be asked to help in a different area. Working together as a team helps to make sure that we meet our responsibility of providing a safe a clean place for the students and staff. It also makes this a better place to work.

Locker Rooms

Custodians should NOT enter a locker room when in use. Head Custodians will assign locker room cleaning at specific times in order not to interfere with daily usage such as practices or game days.

Grounds

It is a daily duty to do the following:

1. Remove paper, cans, and trash from the grounds.
2. Keep the playground equipment in safe condition by reporting any hazard immediately.

Important Safety Information

Know Your Equipment

In maintaining a healthy, clean, germ-free environment, special emphasis must be placed on the condition of the chemicals and equipment used.

- Know the equipment, tools and chemicals you are using.
- Keep the equipment and tools clean and in good working order.
- Know how to operate all equipment properly and safely.

Always use safety measures when operating any equipment

Safety

Before a worker is trained to use a piece of equipment or chemical, he/she should be trained on safety measures. The majority of accidents are caused because of improper training and careless attitudes on the part of all toward accident-causing situations. Here are a few actual accidents that commonly take place in school, with suggested ways in which they could have been prevented:

1. Custodian falls from a ladder that slipped while putting in light bulbs and receives injury to shoulder. (Ladder should be well secured with rubber feet.)
2. Phosphoric acid splashes into eye of custodian while he/she is pouring solution into container. Eye is badly burned. (Should use proper safety equipment.)
3. Custodian receives back injury from moving heavy object. (Get help, training.)
4. Custodian slips and falls on wet floor or object and injures arm, elbow or wrist. (Wear nonskid shoes when working in wet area. Keep spills mopped up and keep objects picked up that should not be on the floor.)

A custodian must always be alert for health or accident hazards endangering children or adults. Hazards resulting from broken equipment or other unusual building conditions should be reported to the proper authority at once. Never leave a slick spot or any foreign material on the floor that may be hazardous to the occupants of the building. Always put out safety precaution signs where a floor may be wet from mopping or leaking water.

Common Hazards

Some of the common hazards that may exist are listed below with suggested corrections:

DANGEROUS CONDITIONS	SUGGESTED CORRECTION
Broken furniture	Remove it from service, report it to the Head Custodian.

Slippery floors	Remove the cause (grease, water, etc.).
Nails	Remove or drive them in.
Broken window	Report the broken window to office staff.
Obstructions in corridors	Remove and keep hall and corridors or hallways clear. Do not leave equipment where it creates a hazard.
Moving heavy equipment	Use a dolly and/or secure assistance.
Broken glass and debris on lawn	Remove
Exterior door will not lock	Immediately tell office staff (daytime hours) and 817-299-6000 (after hours).
Entries and exits blocked	Remove obstacle.
Loose desks	Tighten bolts or screws.
Splintered floors, wall, desk, etc.	Remove splinters.
Bare or defective wiring	Turn off switch and also report to the office staff.
Leaky gas connection	Call 817-299-4340 immediately.
Standing on chairs	Do not stand on furniture. Use step-ladder of proper size.

Lifting

Improper carrying and lifting is the cause of many accidents. In custodial work we are constantly lifting, pushing, carrying. If not properly done, strained muscles will result.

Following are some tips:

1. Get help for heavy loads.
2. Size up for weight and bulkiness.
3. Face load squarely with firm footing.
4. Lift slowly and evenly by straightening the legs.
5. Hold load close to the body.

Ladder Safety

The ladder is probably the most abused piece of equipment. The blame cannot be placed on the ladder. It is the user and the condition of the equipment that is the real cause of accidents. Because ladders are involved in so many accidents, frequently of a serious nature, the following are safety tips concerning ladders:

1. Select the right ladder for the job to be done.
2. Never use stepladders more than 6 feet long.
3. Never stand on top of a stepladder unless it has a guardrail.
4. Never place a ladder against a movable surface.
5. Always use 3 points of contact while climbing up/down a ladder.
6. Use rubber sole shoes when climbing a ladder.
7. Never carry supplies in hands while going up or down ladder.

Chemical and Cleaning Solutions

Most chemicals used by the school district come in a highly concentrated form and must be diluted before use. Some are in dispensing systems that dilute automatically. Always read the instructions and the material safety data sheets for each product. The following safety rules are for your protection; however, they will not be of any help if you don't use them (Only dilute with water).

1. Ensure that Material Safety Data Sheets (MSDS) are accessible and that all maintenance and custodial personnel as well as administration are aware of their location. Periodically review your (MSDS) sheets to ensure that they are current and reference chemicals that are currently in use. KNOW THE PROPER FIRST AID PROCEDURES FOR ALL CHEMICALS USED IN THE SCHOOL THAT HAVE THE ABILITY TO CAUSE HARM TO BUILDING OCCUPANTS AND WORKERS.
2. Know what you are using. Do not use chemicals from unmarked bottles or containers.
3. Always read the label and follow the instructions.
4. Measure all chemicals. If the directions say to use four (4) ounces in one (1) gallon of water, measure the water and the chemical correctly. A weak solution may not provide the proper cleaning power. A solution that is too strong will not only waste supplies, but will damage the surface on which you use it. It may also have the potential to cause injury to yourself or others.
5. Do not substitute chemicals. Many chemicals are made only for specific jobs.
6. Never mix chemicals. You can easily destroy a chemical's usefulness or possibly create a poisonous gas or solution by mixing it with other chemicals.
