CERTIFICATE OF THE BOARD

Mansfield Independent School District

Name of School District

Tarrant

County

220-908

Co. - Dist. No.

We, the undersigned, certify that the annual financial reports for the above named school district were reviewed and approved for the year ended June 30, 2016, at a meeting of the Board of Trustees of such school district on the 15th day of November, 2016.

Signature of Board Secretary

Signature of Board President

November 11, 2016

To the Board of Trustees and the Citizens of Mansfield Independent School District:

The Annual Financial Report of the Mansfield Independent School District (the District) is hereby submitted. This report has been prepared to provide the Board of Trustees, representatives of financial institutions, the citizenry, and other interested parties information concerning the financial condition of the District. The government-wide financial statements in this report provide an overview of the District's governmental activities, while detailed fund financial statements describe specific activities of each fund used in accounting for the District's financial transactions. This report was prepared by the District's Finance Department in accordance with generally accepted accounting principles (GAAP) and reporting standards as promulgated by the Governmental Accounting Standards Board ("GASB").

Responsibility for the accuracy, completeness, and fairness of the presentation and its disclosures rests with the District. To the best of our knowledge and belief, the enclosed information is accurate in all its material respects. This data is reported in a manner designed to fairly present the financial and operational results of the District as measured by financial activities of its various funds. Disclosures necessary to enable the reader to gain understanding of such financial operations have been included.

The Annual Financial Report is presented here in four sections: 1) introductory, 2) financial, 3) statistical, and 4) federal awards. The introductory section includes this transmittal letter, the Certificate of Board, and lists of Board members and administrative staff. The financial section includes the basic financial statements, the required supplementary information, combining and individual fund statements and schedules, and other supplementary information. Also included in the financial section is the independent auditors' report on these financial statements and Management's Discussion and Analysis. Reference should be made to Management's Discussion and Analysis for additional information regarding the District's financial operations. The statistical section consists of unaudited tables which reflect both financial and demographic data. This information is for the purpose of presenting social and economic information, financial trends and fiscal capacity of the District, and is generally presented on a multi-year basis.

The District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1996 and the United States Office of Management and Budget Uniform Guidance. Information related to this single audit, including the schedule of expenditures of federal awards, findings and questioned costs, and the independent auditors' reports on compliance and internal control over financial reporting and compliance with requirements applicable to each major program and internal control over compliance are included in the federal awards section.

This report includes all funds of the District. The District is a public school system offering a full prekindergarten through grade twelve education for eligible residents within its geographic boundaries. All activities over which the District Board of Trustees exercises authority and/or oversees responsibilities are included.

General Information

Mansfield Independent School District was established in 1909. The District is governed by a seven member Board of Trustees (the Board) serving staggered three-year terms with elections held in May of each year. All candidates must be qualified voters and residents of the District. Monthly meetings of the Board are posted and advertised as prescribed under state law so that the Board may meet to fulfill its charge to the students, parents, staff, and taxpayers of the District. Special meetings or study sessions are scheduled as needed.

The Board has final control over all school matters except as limited by state law, the courts, and the will of its citizenry as expressed in elections. The Board's responsibilities are generally: to set policy for the District, to ensure efficient operations, to select and evaluate the Superintendent of Schools, to adopt an annual budget and its supporting tax rate, and to foster good community relations and communications.

The District provides a well-rounded program of public education from prekindergarten through grade twelve, and all schools within the District are fully accredited by the Texas Education Agency. In order to serve its current enrollment of 33,809 students (as of June 2016), the District provides regular, special education, vocational, gifted/talented, and bilingual/ESL curriculums. A broad range of elective and extracurricular programs are also offered. Finally, support departments of the District ensure that student needs for transportation, nutrition, guidance, counseling, and facilities maintenance are addressed.

Economic Condition and Outlook

The District is located southeast of Fort Worth, in the southeastern corner of Tarrant County, due south of Arlington, with a small portion overlapping the northeastern portion of Johnson County. The District encompasses approximately 80 square miles in Tarrant County and 14.5 square miles in Johnson County serving students in Mansfield, Arlington, Grand Prairie, and Burleson.

In recent years, the District's tax base has continued to increase at a higher level than some adjoining areas which have seen smaller or level property values. This is a direct result of new housing construction, not being dependent upon any one major industry and the drilling of gas wells in the Barnett Shale. The increased emphasis by the City of Mansfield to enhance their economic development efforts should continue to help with this trend. Property values have increased an average of 4.7 percent over the last three years; however, value increases have been steadily declining.

While the District has experienced slower growth in property values due to the economic downturn, this trend began a reversal with the fiscal 2012 values increasing 6%. This expansion in the tax base was primarily attributable to new residential construction accompanied by some growth in retail and commercial development. In fiscal 2013 property values were \$9.2 billion reflecting a 2% decline from 2012 due to a drop off in oil and gas values. The District continues to enjoy diversity in its tax base as the top 10 taxpayers constitute a mere 8% of the 2012 assessed value.

Job availability and stability have affected both the national and local economies. Despite the concerns of higher unemployment and of stagnating sectors of the local economy, jobs-and the potential for jobs-are still providing pull to Texas and to key suburban locations within the Dallas-Fort Worth-Arlington metro area. Consultants predict that the District's employment gains will outpace almost all of the State's school districts as the national recovery begins.

The student population of the District has seen explosive growth over the last decade. While the growth has slowed, student enrollment growth has averaged 1.3 percent for the last three years. The current estimated District population is 146,603.

Our district has something for everyone, and we all collaborate together to make sure that each and every student reaches the utmost level of success. From our Apple Distinguished Program and award-winning fine arts and athletics programs to our focus on data-driven instruction and individualized pathways for college and career readiness, you will see why MISD is truly a destination district.

We will always seek for continual improvement and growth in all areas to ensure our students, staff, and overall learning environment remain some of the best in the state. We believe that the district is accountable to meet the needs of all students, and focusing resources to accomplish this goal is of highest priority with campus leadership actively involved in making requests that specifically improve student performance.

Long Range Planning

The Mansfield Independent School District exists to strengthen the social and economic foundation of our population by assuring its youth the highest quality elementary and secondary education available anywhere. The district has implemented a 5-year plan called Vision 2020. Vision 2020 defines the school district's mission, vision, and core values; and its guiding statements provide clear focus for improvement. This plan will help drive our district to greater heights.

Our mission is “to inspire and educate students to be productive citizens.” This means that we prepare all of our students to succeed after graduation in their college or career path.

MISD's vision is to be “a destination district committed to excellence.” We want to always strive to be the best of the best and settle for nothing less in all areas of what we do.

The values MISD upholds to achieve this are: students first, continuous improvement, integrity, communication, positive relationships and resiliency.

Mansfield Independent School District

Mission To inspire and educate students to be productive citizens.

A destination district committed to excellence. **Vision**

Values

- Students First
- Continuous Improvement
- Integrity
- Communication
- Positive Relationships
- Resiliency

Motto MISD: A great place to live, learn, and teach.

Guiding Statements

1. Students will read on level or higher by the beginning of third grade and will remain on level or higher as an MISD student.
2. Students will demonstrate mastery of Algebra I by the end of ninth grade.
3. Students will graduate with 24+ college hours and/or industry certification or a certificate.
4. Students will participate in an extra or co-curricular activity.
5. Our parents and students will have choices with educational opportunities.

2015-2016 Points of Pride

The following summarizes various District achievements for the 2015-2016 school year:

- ❖ The Mansfield Education Foundation, established in 1998, raised over \$387,000 and funded more than 50 grant projects.
- ❖ Lake Ridge High School senior Cambly Sassman was named a National Merit Scholarship Semifinalist. Less than 1 percent of high school students receive this honor.
- ❖ Lake Ridge High School's Hunter Jaynes, Legacy High School's Haley Yelle and Jeff Jameson and Mansfield High School's Michael Thibert brought home medals in various events at the UIL State Swimming and Diving Meet.
- ❖ Summit High School track coach Shannon Utley was chosen to be the assistant coach of jumps at the Rio 2016 Paralympic Games in Rio de Janeiro, Brazil. One of the athletes she will coach is Tobi Fawehinmi, a Summit High graduate who qualified for the international event.
- ❖ Frontier High School students Brandon Perry and Leona Linton won first place at the Chopped competition, a culinary competition North Texas high school students. The district hosted the event in May 2016 at the Center for Performing Arts.
- ❖ Mansfield ISD's Superintendent Dr. Jim Vaszauskas and Texas Wesleyan University President Mr. Frederick G. Slabach sign an agreement that gives MISD graduates who want to be teachers a head start in their career. Mansfield ISD also signed agreements with the University of North Texas and Prairie View A&M University.
- ❖ The entire Mansfield ISD community came out to show record-breaking support for the fourth annual MISD Toys for Tots event. With the amazing generosity of everyone involved, more than 30,000 toys and approximately \$9,000 were donated to the campaign.
- ❖ Makenna Hennegan and Kristen Laurie, from Lake Ridge High School, received an honorable mention from C-SPAN for their documentary "To a Good Home." The cable network's StudentCam contest received more than 2,500 entries nationwide.
- ❖ On the first Monday of each month in the 2016-17 school year, Mansfield ISD encouraged the community to wear a color that represents a cancer that affected the life of a loved one. Superintendent Dr. Jim Vaszauskas was very grateful for the support felt during his bout with cancer that he wanted to make sure that everyone fighting the battle felt encouraged and loved by the Mansfield ISD community.

Bond Update

Since 2000, Mansfield ISD residents have voted in support of five different bond packages for the district. Those bond programs have allowed the school district to expand effectively with MISD's fast-growing community. In 2011, the most recent bond was approved for 198.5 million dollars and allowed for improvements to all 42 campuses, including demolishing and rebuilding five elementary schools.

2006 Bond Election

Work continues on construction related to the 2006 bond election. The new Nancy Neal Elementary School opened for the 2011-2012 school year. During the summer of 2012, construction on Lake Ridge High School (the District's 5th high school) and the new Center for Performing Arts was completed. The Center for Performing Arts opened in time for the May 2012 graduation ceremonies. Lake Ridge High School opened for the 2012-2013 school year. During 2015-2016 major renovations took place at Ben Barber Innovation Academy which included new culinary kitchens, a "living" hospital, new pharmacy, new video lab, and a new print shop.

2011 Bond Election

District voters approved a \$198,530,000 bond package in November 2011. Projects include replacement of older campuses, renovations, technology improvements, safety and security, and many other projects identified through the District facility condition assessment. Currently the district has rebuilt Tarver Rendon Elementary School, J.L. Boren Elementary School, Alice Ponder Elementary School, Glenn Harmon Elementary School and Charlotte Anderson Elementary which will open in August 2017. Wireless internet has been installed at all campuses and departments, security cameras and keyless entry updates have been completed at all campuses and departments as well as secure entry vestibules on each campus.

Relevant Financial Information

The District's management is responsible for establishing and maintaining internal controls that are designed to ensure that the assets of the District are protected from loss, theft, and misuse, and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: 1) the cost of a control should not exceed the benefits likely to be derived; and 2) the valuation of costs and benefits requires estimates and judgments by management. Management believes the internal controls adequately meet the above objectives.

Single Audit

As a recipient of federal, state and local awards, the District also is responsible for ensuring that adequate internal controls are in place to provide compliance with applicable laws and regulations related to those programs. These internal controls are subject to ongoing review by management of the District.

As a part of the District's single audit described above, tests are made to determine the adequacy of the internal controls, including that portion related to financial award programs, as well as to determine that the District has complied with applicable laws and regulations. The results of the District's single audit for the fiscal year ended June 30, 2016 provided no instances of material weaknesses in the internal controls over financial reporting or over compliance with requirements applicable to each major program. In addition, the audit disclosed no material instances of non-compliance with certain provisions of laws, regulations, contracts and grants and that the District complied with all material compliance requirements applicable to each major program.

Budgetary Controls

In addition to the above, the District maintains budgetary controls throughout all of its financial systems. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated (official) budget adopted by the Board. Activities in the General Fund, National School Lunch and Breakfast Program Fund, Debt Service Fund are included in the official budget. The level of budgetary control (i.e., the level at which expenditures cannot legally exceed the appropriated amount) is the fund-function level. District systems may exercise budgetary control at varying combinations of the account code structure. The Texas accounting system for school districts as codified in the Texas Education Agency Financial Accountability System Resource Guide creates a 20-digit account code structure and requires budgetary control through the fund-function level.

The District also utilizes an encumbrance accounting system to maintain budgetary control through a transaction's life cycle. Outstanding encumbrances at the end of a fiscal year lapse at year-end, and are treated as expenditures in the subsequent year upon receipt of goods.

The cost of operating schools and the revenues to cover these costs are accounted for through the General Fund. Special programs, primarily funded by the state or federal governments and designed to accomplish a particular objective, are accounted for in Special Revenue Funds.

The District allocates a portion of its tax rate for payment of bond interest and maturities and accounts for these transactions through its Debt Service Fund. The District accounts for school construction financed by bond sales and other revenues through the Capital Projects Fund.

The financial statement format is prescribed by Financial Accountability System Resource Guide of the Texas Education Agency. As demonstrated by the statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management.

The National School Lunch and Breakfast Program Fund (Child Nutrition) is used to account for the operations of the District's cafeterias and other food facilities. Revenues are derived primarily from charges to users and from federal child nutrition programs under which amounts are received by grant and by receipt of commodities from the United States Department of Agriculture ("USDA").

The District also maintains Trust and Agency Funds which encompass private purpose trusts as well as agency funds for student activity and other granting organizations.

Cash Management

Cash temporarily idle during the year was invested in a diversified portfolio consisting of: demand deposits, U.S. Agencies, Government Sponsored Entities, Municipal Bonds and Constant Dollar Pools. The District's cash and investment policy minimizes credit and market risks while maintaining a competitive yield on its portfolio. As evidenced by the diversity of its investment portfolio, the District continues to take advantage of all investment opportunities available to it. Safety of principal will continue to be foremost in the District's investment decisions. Frost National Bank, N.A. was the official depository of the District, by contract, for the fiscal year ended June 30, 2016. Detailed information regarding the District's investments can be found in the Notes to the Basic Financial Statements.

Fund Balance

The total General Fund balance is managed as an integral part of the subsequent year's budget adoption and tax rate setting process. The Board has been proactive in building the District's fund balances over time striving to maintain at least three months operating expenditures in the unassigned general fund balance. Changes in fund balance policy occurred in 2011 through the implementation of GASB 54. Fund balance descriptions and policy requirements were added through this new standard. In August 2011, the Board voted to set aside all oil and gas revenues for future capital projects and an additional \$2 million per year for technology improvements and replacements.

In 2011-2012 various expenditure reductions were made, to offset state funding cuts of \$4 billion passed in the 82nd Legislative session. These reductions included 10% reductions in departmental budgets, changes in campus schedules, and personnel savings through attrition. Effective with the 2012-2013 budget, the District's healthy fund balance is being strategically used in addition to the reductions already in place.

Risk Management

The District's risk management policies and practices incorporate all the functions of a sound risk management program. Included are surveys identifying potential risks, actions to address and correct those risks, and an overall plan to coordinate risk retention and risk transfer. A Risk Manager is employed to provide ongoing attention to the complex changes in the risk management needs of the school district.

Independent Audit

State law and District policy require an annual audit by independent certified public accountants. The annual audit was performed by Whitley Penn for the year ended June 30, 2016.

In addition to meeting the requirements set forth in state statutes, the audit was designed to meet the requirements of the federal Single Audit Act of 1996 and related OMB Uniform Guidance. The independent auditors' report on the basic financial statements is included in the financial section of this report. Also included in this report are the independent auditors' reports relating specifically to the single audit.

Awards and Acknowledgements

Mansfield Independent School District received a Certificate of Achievement for the Excellence in Financial Reporting from the Government Finance Officers Association of the United States and Canada (GFOA) for its CAFR for the fiscal year end August 31, 2015. The Certificate of Achievement requires the governmental unit to publish an easily readable and efficiently organized CAFR with contents that conform to program standards. The CAFR also needs to satisfy both the GAAP and applicable legal requirements. This Certificate of Achievement is valid for one year only. We believe that this current report will conform to the Certificate of Achievement Program requirements and is being submitted to the GFOA for review.

The district also received the Association of School Business Officials' (ASBO) Certificate of Excellence in Financial Reporting for the prior fiscal year. This award certifies that the CAFR for the fiscal year ended August 31, 2015 substantially conforms to the principles and standards of reporting as recommended and adopted by ASBO. We believe that our current report will also meet the Certificate of Excellence Program requirements and will be submitted to ASBO for review.

The preparation of this report on a timely basis could not have been accomplished without the dedicated efforts of the entire staff of the Finance office and the independent auditors' staff. Sincere appreciation for their time and efforts in this endeavor must be expressed. Also, thanks need to be extended to the Board of Trustees for their interest and support in the planning and operations of the financial services area of the District. Their concern that the business of the District be conducted efficiently and responsibly, and their recognition of the importance of such services, makes such tasks rewarding for the staff as a whole.

INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees
Mansfield Independent School District
Mansfield, Texas

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Mansfield Independent School District, as of and for the ten month period ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Fort Worth

Houston

To the Board of Trustees
Mansfield Independent School District

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof for the ten month period then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information and pension information on pages 7-19 and 79-82 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplementary information such as the combining and individual nonmajor fund financial statements, the Texas Education Agency required schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards as required by the Uniform Guidance and the other information, such as the introductory and statistical sections, are also presented for purposes of additional analysis and are not required part of the basic financial statements.

The combining and individual nonmajor fund financial statements, the Texas Education Agency required schedules, and schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, the Texas Education Agency required schedules, and schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Mansfield Independent School District

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 11, 2016 on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* is considering the District's internal control over financial reporting and compliance.

Management's Discussion and Analysis

(This page intentionally left blank.)

This section of the Mansfield Independent School District's (the "District") annual financial report presents our discussion and analysis of the District's financial performance for the ten months ended June 30, 2016. It should be read in conjunction with the report of independent auditors preceding and the basic financial statements following this section.

Financial Highlights

- At June 30, 2016, the District's combined assets and deferred outflows exceeded its liabilities and deferred inflows by \$39,537,700 (net position). The unrestricted portion of \$61,904,059 may be used to meet the District's ongoing obligations. The District's total net position increased by \$26,213,370.
- The District's total net position increased by \$26,213,370. The primary reason for the increase is due to the District changing its fiscal year end date from August 31 to June 30. This change occurred in the year of audit, which allowed the District to recognize essentially 12 months of revenue and only ten months of expenses for a onetime increase in net position. The other factors that substantially contributed to the increase in net position were the net results of changes in state aid due to the special session of the 82nd state legislature which increased the amount for fractional funded districts, property value changes, increases in student enrollment. The net effect of these items accounts for approximately \$32.6 million (or 49%) of the increase in net position.
- At the close of the fiscal year, the District's governmental funds reported \$171,412,595.
- District had \$106,142,308 or 62% of total fund balance available for the District's ongoing obligations (unassigned fund balance).
- As of June 30, 2016, the General Fund's unassigned fund balance was \$106,142,308 representing 44% of the total General Fund expenditures in the current fiscal year.

Overview of the Financial Statements

The District's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains required supplementary information and other supplementary information in addition to the basic financial statements themselves.

The basic financial statements include two types of statements that present different views of the District, the government-wide financial statements and the fund financial statements.

Government-wide Financial Statements

The government-wide financial statements, including the *Statement of Net Position* and the *Statement of Activities*, report on the District as a whole and are designed to provide readers with a broad overview of the District's finances. These statements are presented on the accrual basis of accounting similar to the accounting basis used by most private-sector entities.

The *Statement of Net Position* presents information on all of the District's assets, liabilities, and deferred inflows/outflows of resources with the difference reported as net position. The *Statement of Activities* presents the increases and decreases in net position for the current fiscal year regardless of when cash is received or paid. Increases and decreases in net position over time may serve as one indicator of whether the financial position of the District is improving or deteriorating but should be considered with additional factors as well.

Government-wide financial statements distinguish net position and the changes in net position between *governmental activities*, which are supported principally by taxes and intergovernmental revenues, and *business-type activities*, which are intended to recover all or a significant portion of their costs through user fees and charges.

Fund Financial Statements

The fund financial statements provide detailed information about the District's most significant funds as opposed to the District as a whole. Funds are accounting devices used to account for specific sources of funding and spending for particular purposes. State law and bond covenants require the District to establish some funds. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related requirements.

The District's funds include three types: 1) governmental funds, 2) proprietary funds, and 3) fiduciary funds.

Governmental funds

Most of the District's activities are reported in governmental funds. Governmental funds report on the modified accrual basis of accounting which focuses on 1) how cash and other financial resources can be readily converted to cash inflows and outflows and 2) the balances remaining at year end available for future spending. The governmental fund statements provide a detailed short-term view of the District's operations and funds available to finance future operations. Because the focus and accounting methods are different for the governmental fund statements and the government-wide statements, reconciliation schedules are presented following each of the fund financial statements.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

The focus of governmental funds is narrower than that of the government-wide financial statements; therefore, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the Governmental Fund Balance Sheet and the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains 29 governmental funds. Information is presented separately in fund financial statements for the general, debt service and capital projects funds, all of which are considered to be major funds. Data from the other governmental funds is combined into a single, aggregated presentation. Individual fund data for each of the nonmajor governmental funds is provided in the form of combining statements elsewhere in this report. The District adopts an annual appropriated budget for its general fund, debt service fund, and the child nutrition fund. A budgetary comparison schedule has been provided to demonstrate compliance with these budgets.

Proprietary funds

Proprietary funds are used to account for operations that provide services and/or goods for a fee, whether to outside users or units within the District. Proprietary funds use the same accrual basis of accounting used in the government-wide financial statements. There are two types of proprietary funds: enterprise funds and internal service funds.

The enterprise funds report the same functions presented as *business-type activities* in the government-wide financial statements. Internal service funds are an accounting tool used to accumulate and allocate costs internally among various functions. The District uses enterprise funds to account for its day care operations and the natatorium.

The second type of proprietary fund is the internal service fund. Internal service funds are an accounting device used to accumulate and allocate costs internally among the various functions. The District does not have any internal service fund.

Fiduciary funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are *not* available to support the District's own programs. The District is the trustee, or fiduciary, for these funds and is responsible for ensuring that the assets reported in these funds are used for their intended purposes. These funds are excluded from the District's government-wide financial statements as the District cannot use these assets to finance its operations.

Table I below provides a concise view of the major features of the District's financial statements including the portion of the District they cover and types of information they contain.

Table I Major Features of the District's Financial Statements				
	Government-wide Statements	Fund Statements		
		Governmental Funds	Proprietary funds	Fiduciary Funds
<i>Scope</i>	Entire District (except fiduciary funds)	Activities of the District that are not proprietary or fiduciary	Activities of the District that charge fee for services and or goods	Activities for which the District is the trustee/ agent for other parties
<i>Required financial statements</i>	<ul style="list-style-type: none"> • Statement of Net Position • Statement of Activities 	<ul style="list-style-type: none"> • Balance Sheet • Statement of Revenues, Expenditures & Changes in Fund Balances 	<ul style="list-style-type: none"> • Statement of Net Position • Statement of Revenues, Expenses & Changes in Fund Net Position • Statement of Cash Flows 	<ul style="list-style-type: none"> • Statement of Fiduciary Net Position • Statement of Changes in Fiduciary Net Position
<i>Accounting basis and measurement focus</i>	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
<i>Type of asset/liability information</i>	All assets and liabilities, both financial and capital, short-term and long-term	Only assets expected to be used up and liabilities to be paid during the year or soon thereafter; no capital assets or long-term debt	All assets and liabilities, both financial and capital, short-term and long-term	All assets and liabilities, both short-term and long-term; the District's fiduciary funds do not currently have capital assets, although they can
<i>Type of inflow/outflow information</i>	All revenues and expenses during the year, regardless of when cash is received or paid	Revenues for which cash is received during the year or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenues and expenses during the year, regardless of when cash is received or paid	All revenues and expenditures during the year, regardless of when cash is received or paid. Agency funds do not report revenues and expenditures

Notes to the Financial Statements

The notes to the basic financial statements provide additional information that is essential to a complete understanding of the data provided in the government-wide and fund financial statements.

Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents certain other supplementary information concerning the District. The required supplementary information relates to comparison of the original adopted budget, the final amended budget, and the actual amounts for the fiscal year. This is required supplementary information for the general fund and any major special revenue funds. The District did not have any major special revenue funds; therefore, only the general fund is presented as required supplementary information.

Other Supplementary information

The combining and individual fund statements and schedules and the compliance schedule comprise the supplementary information and are presented immediately following the required supplementary information.

Government-Wide Financial Analysis

Changes in Net Position.

Total combined net position of the District increased by \$26,251,451 during the year ended June 30, 2016 (see Table II). Funding for government-wide activities is through specific program revenues or general revenues such as property taxes and unrestricted grants and contributions. The following is a summary of government-wide activities:

- The cost of all activities this year was \$329,250,614, a decrease of \$31,040,915 million over the previous year. Decrease was due primarily to the change in fiscal year in reporting ten months rather than the twelve months in the prior year.
- Some of these costs were funded by program revenues, \$29,064,769, directly attributable to specific activities. Some of the costs were supported by the additional of a capital lease to fund some of the one-to-one iPad initiative and replacement program.
- The remaining cost of government-wide activities was funded from general revenues, \$325,581,358, such as property taxes and unrestricted state and federal grants and contributions.

Table II - Change in Net Position

Increase (Decrease) in Net Position	26,213,370	(18,393,769)	38,081	192,375	26,251,451	(18,201,394)
Net Position - Beginning, restated	13,324,330	79,378,198	1,446,756	1,254,381	14,771,086	80,632,579
Prior Period Adjustments		(47,660,099)				(47,660,099)
Net Position - Ending	\$ 39,537,700	\$ 13,324,330	\$ 1,484,837	\$ 1,446,756	\$ 41,022,537	\$ 14,771,086

The district's revenues are derived primarily from property taxes and state aid (see Figure 1). Property taxes represents 45.34% of total revenues while state aid is 44.94%. The remaining 9.72 % of revenues is derived from operating grants and contributions, charges for services and miscellaneous revenues.

Figure 1

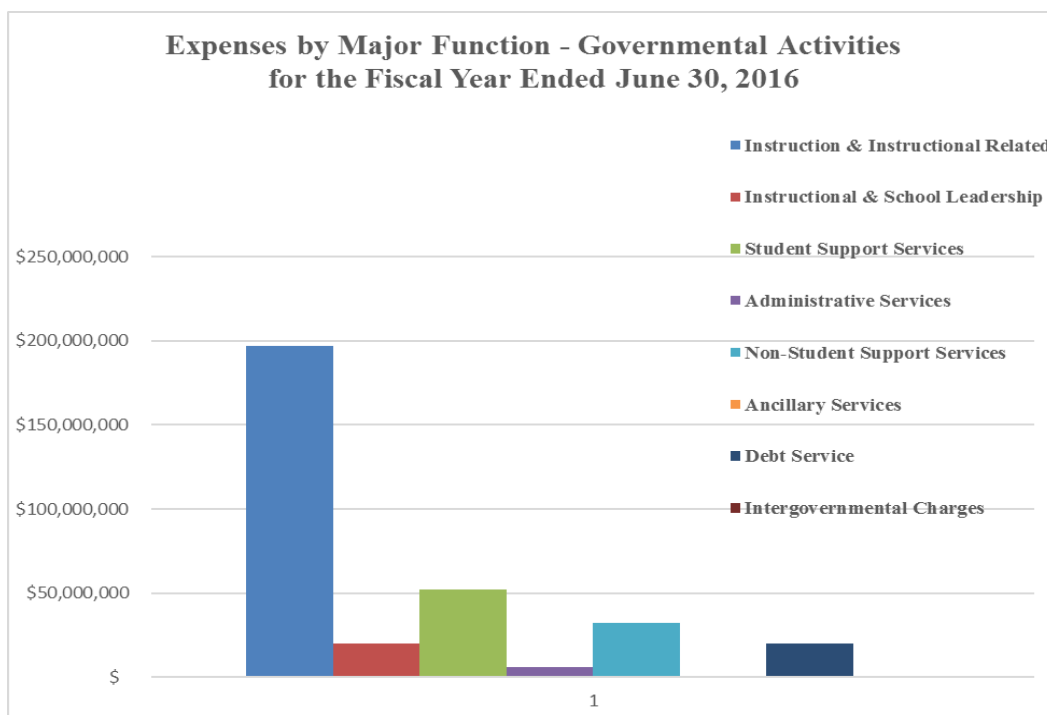

Figure 2

The primary functional expense (see Figure 2) of the District is instruction at \$196 million which represents 59.97% of total expenses. Student Support represents 15.82%, Non-student Support represents 9.83%, Interest on Debt represents 6.10%, and Instructional and School Leadership represents 6.06%. The remaining individual functional categories are each less than 3%. Total expenses in the current fiscal year were \$328.4 million, a \$31 million or 10% percent decrease from the prior year which is largely attributable to the change in the district's fiscal year, representing ten months rather than twelve months of operating expenditures.

Table III shows the Districts largest governmental functions as well as their related net cost (total cost less fees and grants and contributions for the activities). The net cost reflects what was funded by property taxes, unrestricted state and federal grants and contributions and other miscellaneous local revenues.

Table III - Costs of Services for Major Functions

	Cost of Services		Net Cost of Services	
	2016	% of Total	2016	% of Total
Instruction	\$ 189,208,988	52.5%	\$ 180,630,605	60.3%

Facilities Maintenance and Operations	25,089,753	7.0%	24,902,129	8.3%
Interest and Fiscal Charges	20,022,826	5.6%	20,022,826	6.7%

Financial Analysis of the District's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements, bond covenants, and segregation for particular purposes.

Governmental Funds

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of a fiscal year.

As of June 30, 2016, the District's governmental funds reported combined fund balances of \$171,412,595, a decrease of \$2.3 million from the prior year. The unassigned fund balance, \$106 million or 62% of the total ending fund balance is available for spending at the District's on-going operations. The remainder of fund balance has various spending constraints as detailed in Table IV.

Table IV - Governmental Fund Balances

	Amounts	% of Total
Non- Spendable		
Inventory	521,951	0.3%
Prepaid items	531,903	0.3%
Total Non-spendable	1,053,854	0.6%
Restricted		
Federal, State and Local Grants	2,450,640	1.4%
Capital Acquisitions	35,015,509	20.4%
Retirement of Long-Term Debt	25,268,777	14.7%
Total Restricted	62,734,926	36.6%
Committed		
Campus activity funds	1,481,507	0.9%
Total Committed	1,481,507	0.9%
Assigned		
Unassigned	106,142,308	61.9%
Total Governmental Fund Balances	\$ 171,412,595	100.0%

The General Fund is the primary operating fund of the District. At June 30, 2016, unassigned fund balance of the General Fund was \$106,142,308, which is 99% percent of the total General Fund balance of \$107,128,097. As a measure of the General Fund's liquidity and financial health, it may be useful to compare unassigned fund balance to the total fund expenditures. Unassigned fund balance represents 44% of the current year General Fund expenditures.

The fund balance of the District's General Fund increased \$21.9 million during the current fiscal year.

The Debt Service Fund balance of \$25,268,777 is restricted for the payment of debt service. The fund balance increased \$15,462,056 from the prior year. The increase was a result of the change in the fiscal year which does not include the August 2016 debt payment.

At year end, the Capital Projects Fund had a combined fund balance of \$35,015,509 which is a decrease of \$39,173,065 million from the prior year. The fund balance is restricted for various construction projects and related encumbrances. The decrease in fund balance resulted from the construction projects from the 2006 and 2011 bond programs.

The District's other governmental funds are composed of various special revenue funds. The other governmental funds ended the year with a combined fund balance of \$4,000,212. This represents a decrease of \$574,446 from the prior year. Revenues typically approximate expenditures in the other governmental funds as grant funds, which make up the largest portion of activity in these funds, and are generally earned when expended.

Proprietary Funds

The District's Proprietary Funds include the Day Care Center, the Natatorium, and the Adult Education Program. At year end, the Proprietary Funds had a net position of \$1,484,837 which is an increase of \$38,081 from the prior year. This increase is a result of user fees that are higher than the operating costs incurred by the programs.

General Fund Budgetary Highlights

Over the course of the year, the District revised its General Fund budget. Actual expenditures were \$9.9 million or 3.9% below final budgeted expenditures.

Actual reported revenues were approximately \$2.7 million more than the final total revenues budgeted. The variance in revenues was due to additional student enrollment.

During the year, certain budget amendments were passed to address changes in planned expenditures for the District. This activity is normal for the District as the administration responds to changing needs throughout the year.

Capital Asset and Debt Administration

Capital Assets

As of June 30, 2016, the District had invested approximately \$728.1 million in a broad range of capital assets, including land, equipment, and buildings, less depreciation (see Table V). Net capital assets increased \$11 million from the prior year. The increase was primarily due to the completion of the renovation packages at various campuses and facilities.

Table V – Capital Asset Summary (Net of Depreciation)

	Governmental Activities		
	2016	2015	% Change
Land	\$ 56,126,265	\$ 56,126,265	
Construction in progress	\$ 118,130,266	83,917,926	40.77%
Buildings and improvements	\$ 536,766,981	559,826,126	-4.12%
Furniture and equipment	\$ 17,174,489	17,293,028	-0.69%
Total	\$ 728,198,001	\$ 717,163,345	2.25%

More detailed information about the District's capital assets is presented in the Note 6 to Basic Financial Statements.

Long-Term Debt

The District had \$843.7 million in long-term debt at year end, a decrease of \$25.7 million from the prior year (see Table VI). The District issued \$46.2 million in refunding bonds that resulted in net present value savings of \$3,079,388. In addition, the District made principal payments of \$22.7 million on the bonds during the fiscal year. More detailed information about the District's debt is presented in Note 7 to Basic Financial Statements.

Table VI - Long-Term Debt

	<u>Balance September 1, 2015</u>	<u>Additions</u>	<u>Retirements/ Refundings</u>	<u>Balance June 30, 2016</u>	<u>Due Within One Year</u>
Governmental Activities					
Bonds and notes payable:					
General obligation bonds	\$ 788,320,000	\$ 45,275,000	\$ (69,180,000)	\$764,415,000	\$ 22,280,000
Premium on bond issuance	75,712,469	6,582,414	(13,610,921)	68,683,962	
Capital lease payable	<u>5,434,140</u>	<u>642,440</u>	<u>(1,818,372)</u>	<u>4,258,208</u>	<u>1,925,923</u>
Total Bonds and Notes Payable	<u>\$ 869,466,609</u>	<u>\$ 52,499,854</u>	<u>\$ (84,609,293)</u>	<u>\$837,357,170</u>	<u>\$ 24,205,923</u>

The District continues to receive excellent bond ratings. The latest underlying review by the rating agencies was performed in October 2016. The bonds have a municipal bond rating of "Aaa" by Moody's Investors Service, Inc. ("Moody's") and "AAA" by Standard & Poor's Ratings Services ("S&P") by virtue of the guarantee of the Permanent School Fund of the State of Texas. The underlying ratings for the District remained "Aa2" by Moody's and "AA" by S&P.

Economic Factors and Next Year's Budgets and Rates

During the 84th Texas Legislative Session in the spring of 2015, the Legislature put \$1.2 billion back into Public Education for the 2015-2016 biennium related to the Basic Allotment, \$860 million related to The Austin Yield, and a \$1.2 billion increase in the state mandated homestead exemption for a total of \$3.26 billion in these areas. Continued growth is expected through the district as well. All of these factors have resulted in a healthy fund balance for the district.

The District began the 2015-2016 fiscal year with a fund balance of \$85.2 million and ended the year with \$107.1 million. This healthy fund balance level will assist the District in absorbing the impact of any state funding cuts that may occur in the future as well provide funds for any unexpected expenses that may arise. The District adopted a deficit budget for 2016-2017 which included a 2% cost of living increase for all staff.

Property values for the 2016-2017 fiscal year increased almost 6 percent over the 2015-2016 year. The 2016-2017 total District tax rate per \$100 of property value remained at \$1.51 with a Maintenance and Operations (M&O) rate of \$1.04 and an Interest and Sinking (I&S) rate of \$0.47. The District's enrollment for 2016-2017 increased approximately 1 percent over the prior year.

Current 2016-2017 budgets for the Child Nutrition Fund and Debt Service Fund include estimated revenues and expenditures of approximately \$15.9 million and \$55.8 million, respectively.

Requests for Information

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to show the District's accountability for the funding it receives. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the District's Finance Department, Mansfield Independent School District, 605 E. Broad Street, Mansfield, TX, 76063.

MANSFIELD INDEPENDENT SCHOOL DISTRICT
RECONCILIATION OF BALANCE SHEET FOR GOVERNMENTAL FUNDS TO
THE STATEMENT OF NET POSITION
June 30, 2016

Exhibit C-2

Data Control Codes		
	Total fund balance, governmental funds (from C-1)	\$ 171,412,595
	Amounts reported for governmental activities in the statement of net position (A-1) are different because:	
1	Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds.	728,198,001
2	Property taxes receivable have been levied and are due this year, but are not available soon enough to pay for the current period's expenditures, these property taxes (net of allowance for uncollectible accounts) are deferred in the fund financial statements.	5,335,037
3	The deferred charge on refunding does not provide current resources. As such, this amount is not included in the fund financial statements. It is amortized over the life of the new bonds.	34,611,838
4	Deferred outflows - pension liability	23,562,408
	Long-term liabilities, including bonds payable, are not due and payable in the current period, and therefore are not reported as liabilities in the funds. Long-term liabilities at year end consist of:	
5	General obligation bonds	(764,415,000)
6	Net pension liability	(68,589,992)
7	Capital Lease Payable	(4,258,208)
8	Premiums on issuance	(68,683,962)
9	Deferred inflows related to pension liability	(5,092,135)
10	Accrued interest payable	(12,542,882)
	Total net position, governmental activities (from A-1)	\$ 39,537,700

See Notes to the Financial Statements.

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES
IN FUND BALANCE OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
For the Ten Months Ended June 30, 2016**

Data Control Codes		
	Net change in fund balances - total governmental funds (from C-3)	\$ (2,335,023)
	Amounts reported for governmental activities in the statement of activities (B-1) are different because:	
	Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.	
1	Governmental funds capital outlays	42,528,947
2	Governmental activities depreciation expense	(31,415,033)
3	Loss on disposal	(79,258)
	Governmental funds report the entire net sales price (proceeds) from the sale of an asset as revenue because it provides current financial resources. In contrast, the Statement of Activities reports only the gain on the sale of the assets. Thus, the change in net position differs from the change in fund balance by the book value of the assets sold and disposed.	
4	Change in deferred inflows for property tax revenues.	1,234,448
5	Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.	22,755,000
	Proceeds from issuance of capital lease an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.	(642,440)
6	Proceeds from issuance of refunding bonds is reported as an other financing source	(45,275,000)
7	Repayment of capital lease is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.	1,818,372
8	Payments to escrow agent for refunding bonds	51,373,099
9	Premiums received from issuance of long-term debt	(6,582,414)
	Pension expense	-
10	Contributions made after measurement date	5,152,264
		-
	Some expenses reported in the statement of activities do not require the use of current financial resources and these are not reported as expenditures in governmental funds:	
11	Pension liability deferred inflow due to state revenue	(9,456,214)
	Decrease in long-term portion of accrued compensated absences	
12	Increase in interest payable not recognized in fund statements	(3,368,742)
13	Amortization of deferred charges on refunding as well as premiums and discounts on issuance of bonds	505,364
	Change in net position of governmental activities (see B-1)	<u>\$ 26,213,370</u>

See Notes to the Financial Statements.

Note 1 - Summary of Significant Accounting Policies

Mansfield Independent School District (the "District") is an independent public educational agency operating under applicable laws and regulations of the State of Texas. The District is autonomously governed by a seven-member Board of Trustees elected by the District's residents.

The District prepares its basic financial statements in conformity with generally accepted accounting principles promulgated by the Governmental Accounting Standards Board (GASB) and other authoritative sources identified in *Statement on Auditing Standards No. 69*, as amended by *Statement on Auditing Standards No.'s 91 and 93* of the American Institute of Certified Public Accountants; and it complies with the requirements of the appropriate version of Texas Education Agency's *Financial Accountability System Resource Guide* (the "Resource Guide" or "FASRG") and the requirements of contracts and grants of agencies from which it receives funds.

The District's Financial Statements are in accordance with GASB Statement No. 34, "Basic Financial Statements and Management Discussion and Analysis for State and Local Governments", GASB Statement No. 37, "Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments: Omnibus" which provides additional guidance for the implementation of GASB No. 34, and GASB Statement No. 38 "Certain Financial Statement Disclosures" which changes the note disclosure requirements in the financial statements for governmental entities.

GASB Statement No. 34 established a new financial reporting model for state and local governments that included the addition of management's discussion and analysis, government-wide financial statements, required supplementary information and the elimination of the effects of internal service activities and the use of account groups to the already required fund financial statements and notes.

The GASB determined that fund accounting has and will continue to be essential in helping governments to achieve fiscal accountability and therefore, should be retained. The GASB also determined that government-wide financial statements are needed to allow user's of financial reports to assess a government's operational accountability. The GASB 34 reporting model integrates fund-based financial reporting and government-wide financial reporting as complementary components of a single comprehensive financial reporting model.

The following is a summary of the most significant accounting policies.

Note 1 - Summary of Significant Accounting Policies (continued)

A. Reporting Entity

The Board of Trustees, a seven-member group, has governance responsibilities over all activities related to public elementary and secondary education within the jurisdiction of Mansfield Independent School District ("the District"). Because members of the Board of Trustees are elected by the public; have the authority to make decisions, appoint administrators and managers, and significantly influence operations; and have the primary accountability for fiscal matters; the District is not included in any other governmental "reporting entity" as defined in Governmental Accounting Standards Board ("GASB") Statement No. 14 as amended by GASB Statement No. 39 *Determining Whether Certain Organizations are Component Units* and GASB Statement No. 61 – *The Financial Reporting Entity; Omnibus*. In addition, there are no component units for which the District or the Board of Trustees is financially accountable.

Since the District receives funding from local, state and federal government sources, it must comply with the requirements of the entities providing those funds.

B. Government-Wide and Fund Financial Statements

The Statement of Net Position and the Statement of Activities are government-wide financial statements. They report information on all of the District's nonfiduciary activities with most of the interfund activities removed. *Governmental activities* include programs supported primarily by taxes, State foundation funds, grants and other intergovernmental revenues. *Business-type activities*, which are reported separately, rely to a significant extent, on fees and charges for support.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function. *Program revenues* include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

The fund financial statements provide reports on the financial condition and results of operations for three fund categories – governmental, proprietary, and fiduciary. Since resources in the fiduciary funds cannot be used for District operations, they are not included in the government-wide statements. The emphasis on fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as other funds.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All other revenues and expenses are nonoperating.

Note 1 - Summary of Significant Accounting Policies (continued)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting, as do the proprietary fund and private purpose trust fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose the District considered revenues to be available if they are collected within 90 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures and claims and judgments are recorded only when payments are due.

Revenues from local sources consist primarily of property taxes. Property tax revenues, revenues received from the State, and gas lease revenues are recognized under the susceptible to accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as deferred revenues until related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors may require the District to refund all or part of the unused amounts.

Proprietary funds operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal operations. The principal operating revenues of the District's enterprise funds are for charges to patrons for use of the two facilities, District employee day care and the District natatorium. Operating expenses for the enterprise funds include salaries and other operating expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Note 1 - Summary of Significant Accounting Policies (continued)

D. Fund Accounting

The District reports the following major Governmental Funds:

The **General Fund** which accounts for financial resources related to the general operations of the District, including financial resources not required to be accounted for in some other fund.

The **Debt Service Fund** which is utilized to account for the accumulation of resources for, and the payment of long-term debt principal, interest and related costs arising from general obligation bonds.

The **Capital Projects Fund** which accounts for proceeds from sales of bonds and other revenues to be used for authorized construction and acquisition of capital facilities.

The District also reports the following fund type under **Other Governmental Funds** as non-major:

The **Special Revenue Funds** which account for federal, state and locally financed programs where unused balances are generally returned to the grantor at the close of specified project periods. Proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects are accounted for in special revenue funds. Project accounting is employed to maintain integrity for the various sources of funds.

Additionally, the District reports one type of **Proprietary Fund**:

Enterprise Funds account for the activities of the District's employee day care, adult education program, and natatorium.

The District does not have any **Internal Service Funds**.

Fiduciary Funds:

Private Purpose Trust Fund is used to account for resources legally held in trust under which principal and income benefit individuals, private organizations or other governments.

Agency Fund which is custodial in nature and accounts for activities of student groups and other types of activities requiring clearing accounts. This fund has no equity. Assets are equal to liabilities and do not include revenues and expenditures for general operations of the District. This accounting reflects the District's agency relationship with the student activity organizations. Fiduciary funds use the accrual basis of accounting to recognize assets and liabilities.

Note 1 - Summary of Significant Accounting Policies (continued)

E. Other Accounting Policies- Assets, Liabilities and Net Position or Equity

1. Cash and Cash Equivalents

The District reports cash and cash equivalents in the District's statement of cash flows in all financial statements of financial position. The District considers cash and cash equivalents to be cash on hand, demand deposits, money market mutual funds and certificates of deposit with original maturities of three months or less from acquisition date.

2. Investments

Investments consist of balances in privately managed public funds investment pools and investments, money market mutual funds, and municipal bonds. The District reports all investments at fair value, except for investment pools. The District's investment pools are valued and reported at amortized cost, which approximates fair value.

The District recognizes fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The District's local government investment pools are recorded at amortized costs as permitted by GASB Statement No. 79, *Certain Investment Pools and Pool Participants*.

3. Inventories and Prepaid Items

Supplies and materials are recorded as expenditures when requisitioned. Inventories of supplies on the balance sheet are recorded at cost, using the average cost method. Supplies and materials are used for almost all functions of activity.

Commodities are recognized as revenues in the period received when all the eligibility requirements are met. Commodity inventory items are recorded as expenditures when distributed to user locations. A portion of fund balance is considered non-spendable to reflect minimum inventory quantities considered necessary for the District's continuing operations.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements using the consumption method of accounting.

4. Interfund Transactions and Receivables and Payables

Interfund receivables and payables arise from interfund transactions in the normal course of operations and are recorded in all affected funds in the period in which transactions are executed. All legally authorized transfers are appropriately treated as transfers and are included in the results of operations.

Note 1 - Summary of Significant Accounting Policies (continued)

E. Other Accounting Policies- Assets, Liabilities and Net Position or Equity (continued)

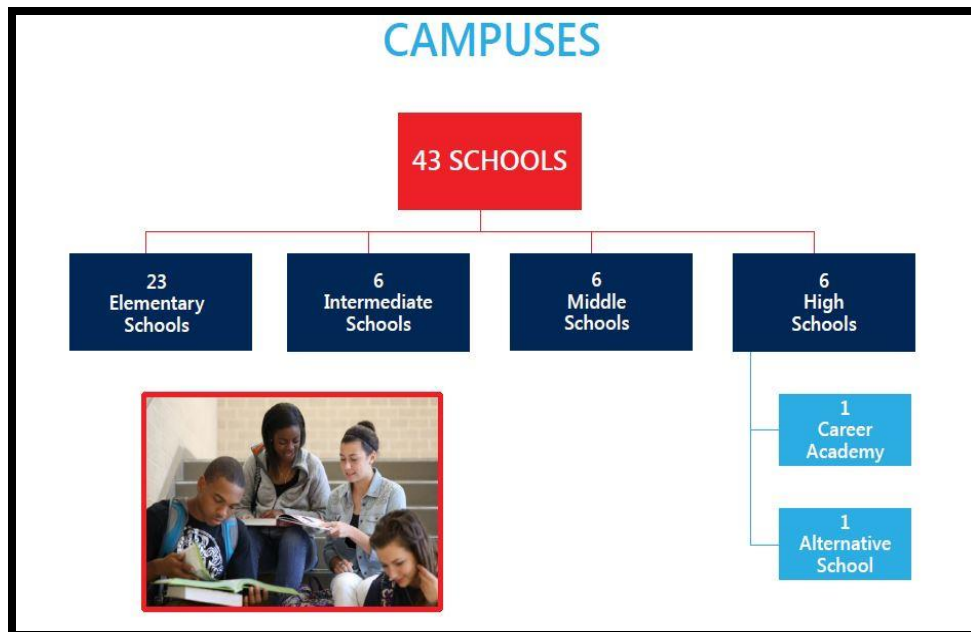

5. Capital Assets

Capital assets, which include land, buildings, furniture and equipment are reported in the government-wide financial statements. Assets are capitalized by the District if the cost of the item is more than \$5,000 and has a useful life of greater than one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the assets or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Buildings, furniture and equipment of the District are depreciated using the straight line method over the following estimated useful lives:

Assets	Years
Buildings and improvements	20-25
Furniture and equipment	5
Vehicles	5-15
Property under capital leases	5

Note 1 - Summary of Significant Accounting Policies (continued)

E. Other Accounting Policies- Assets, Liabilities and Net Position or Equity (continued)

6. Fund Balance

In the fund financial statements, governmental funds report fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which the amounts in the respective governmental funds can be spent. The District reports the following classifications of fund balance:

Non-spendable – amounts that are not in spendable form or that are legally and contractually required to be maintained intact. The amounts reported in this category pertain to inventories or prepayments that the District does not expect to convert to cash.

Restricted – amounts that have external constraints imposed upon the use of the resources by bondholders, grantors, laws, or regulations of other governments or imposed by law through constitutional provisions or enabling legislation. The amounts reported in this category include funding from external sources such as state and federal grants, tax levies for the repayment of principal and interest on long-term debt, and unspent bond proceeds for capital projects.

Committed – amounts constrained to specific purposes imposed by formal action of the District's Board of Trustees. These amounts can only be used for the purpose intended, which requires formal Board action to establish (as noted in Board minutes), unless the Board modifies or removes the specific purpose use by taking the same formal Board action. The District has committed \$1,481,507 for campus activity funds.

Assigned – amounts that the District intends to use for a specific purpose. The Board delegates to the Superintendent or designee the responsibility to assign funds. There were no amounts reported in this category for the current year.

Unassigned – amounts not in the other classifications; applicable to the General Fund only.

The District policy is that the order of spending the fund balances shall be to reduce the funds in the following order: restricted, committed, assigned, and unassigned. When both restricted and unrestricted are available for use for the same purpose, the District considers restricted funds to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

7. Data Control Codes

These codes refer to the account code structure prescribed by the Texas Education Agency ("TEA") in the *Financial Accountability System Resource Guide*.

Note 1 - Summary of Significant Accounting Policies (continued)

E. Other Accounting Policies- Assets, Deferred Outflows/Inflows of Resources, Liabilities and Net Position or Equity (continued)

8. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

The amount of state foundation revenue a school district earns for a year can and does vary until the time when final values for each of the factors in the formula become available. Availability can be as late as midway into the next fiscal year. It is at least reasonably possible that the foundation revenue for fiscal 2016 will ultimately change from the amount calculated as of June 30, 2016 because of the factors that TEA uses in its calculation.

Note 1 - Summary of Significant Accounting Policies (continued)

E. Other Accounting Policies- Assets, Deferred Outflows/Inflows of Resources, Liabilities and Net Position or Equity (continued)

9. Implementation of New Standards

The District has implemented the following new pronouncements:

GASB Statement No. 72, Fair Value Measurement and Application, addresses accounting and financial reporting issues related to fair value measurements. The definition of fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This Statement provides guidance for determining a fair value measurement for financial reporting purposes. This Statement also provides guidance for applying fair value to certain investments and disclosures related to all fair value measurements.

GASB Statement No. 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68, clarifies the application of certain provisions of Statement No. 68 with regard to information that is required to be presented as notes to the 10-year schedules of required supplementary information about investment-related factors that significantly affect trends in the amounts reported.

GASB Statement No. 79, Certain External Investment Pools and Pool Participants, addresses accounting and financial reporting for certain external investment pools and pool participants. Specifically, it establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. This Statement establishes additional note disclosure requirements for qualifying external investment pools that measure all of their investments at amortized cost for financial reporting purposes and for governments that participate in those pools. Those disclosures include information about any limitations or restrictions on participant withdrawals.

Note 1 - Summary of Significant Accounting Policies (continued)

E. Other Accounting Policies- Assets, Deferred Outflows/Inflows of Resources, Liabilities and Net Position or Equity (continued)

10. Deferred Outflows/Inflows of Resources

Deferred Outflows And Inflows Of Resources

A deferred outflow of resources is a consumption of a government's net assets (a decrease in assets in excess of any related decrease in liabilities or an increase in liabilities in excess of any related increase in assets) by the government that is applicable to a future reporting period. The District has two items that qualify for reporting in this category:

- Deferred outflows of resources for refunding - Reported in the government-wide statement of net position, this deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.
- Deferred outflows of resources for pension – Reported in the government wide financial statement of net position, this deferred outflow results from pension plan contributions made after the measurement date of the net pension liability and the results of 1) differences between projected and actual earnings on pension plan investments; 2) changes in actuarial assumptions; 3) differences between expected and actual actuarial experiences and 4) changes in the District's proportional share of pension liabilities. The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the next fiscal year. The deferred outflows resulting from differences between projected and actual earnings on pension plan investments will be amortized over a closed five year period. The remaining pension related deferred outflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with pensions through the pension plan.

Note 1 - Summary of Significant Accounting Policies (continued)

E. Other Accounting Policies- Assets, Deferred Outflows/Inflows of Resources, Liabilities and Net Position or Equity (continued)

10. Deferred Outflows/Inflows of Resources (continued)

A deferred inflow of resources is an acquisition of a government's net assets (an increase in assets in excess of any related increase in liabilities or a decrease in liabilities in excess of any related decrease in assets) by the government that is applicable to a future reporting period. The District has two items that qualify for reporting in this category:

- Deferred inflows of resources for unavailable revenues - Reported only in the governmental funds balance sheet, unavailable revenues from property taxes arise under the modified accrual basis of accounting. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.
- Deferred inflows of resources for pension – Reported in the government wide financial statement of net position, these deferred inflows result primarily from 1) changes in actuarial assumptions; 2) differences between expected and actual actuarial experiences and 3) changes in the District's proportional share of pension liabilities. These pension related deferred inflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with pensions through the pension plan.

11. Pensions

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities, and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Note 2 - Reconciliation of Government-Wide and Fund Financial Statements

A. Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-Wide Statement of Net Position

Exhibit C-2 provides the reconciliation between the fund balance for total governmental funds on the governmental fund balance sheet and the Net Position for governmental activities as reported in the government-wide statement of Net Position. One element of that reconciliation explains that capital assets are not financial resources and are therefore not reported in governmental funds. In addition, long-term liabilities, including bonds payable, are not due and payable in the current period and are not reported as liabilities in the funds. Also, the property taxes receivable which is included as deferred in the fund financial statements are adjusted based on when the tax levy was made and adjusted for uncollectible amounts.

Note 2 - Reconciliation of Government-Wide and Fund Financial Statements (cont.)

B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-Wide Statement of Activities

Exhibit C-4 provides a reconciliation between the net changes in fund balance as shown on the governmental fund statement of revenues, expenditures, and changes in fund balances and the changes in Net Position of governmental activities as reported on the government-wide statement of activities. One element of that reconciliation explains that current year capital outlays and debt principal payments are expenditures in the fund financial statements, but should be shown as increases in capital assets and decreases in long-term debt in the government-wide statements. This adjustment affects both the net asset balance and the change in Net Position. The debt payments on retirement of debt are recorded as expenditures for fund basis financial statements but are a reduction of debt in the government wide financial statements. The capital asset additions are expenditures in the fund basis financial statements but are capitalized in the government-wide financial statements. The fund-basis financial statements do not include depreciation expense. The depreciation expense is a deduction to reconcile to the Government-Wide Statement of Activities. New debt issues are treated as sources of revenue for fund-basis financial statements, but for the government-wide statements, those amounts are recorded as a liability. Property taxes are adjusted for the accrual basis and the deferred revenues are adjusted based on prior year levies and current year uncollectible amounts.

Note 3 - Deposits (Cash) and Investments

Deposits and investment transactions of the District are regulated by State statutes through provisions of Chapter 23, Subchapter E, Sections 23.71 through 23.8 (the School Depository Act) of the Texas Education Code and other Code sections referenced therein and through provisions of the Texas Revised Civil Statutes, Title 47, Articles 2529c, and 2548a regarding security for District funds in depository institutions.

In accordance with applicable statutes, the District has a depository contract with an area bank (depository) providing for interest to be earned on deposited funds and for banking charges the District incurs as a result of banking services received. All depository contracts have a term of two years, commencing with the start of every odd-numbered fiscal year. Depository contracts are awarded on the basis of competitive bids received from area banks and can be awarded to more than one bank if the bids received are relatively equal.

The District may place funds with the depository in interest and non-interest bearing accounts. Statutes and the depository contract require that all funds in the depository institution be fully secured by federal depository insurance or a combination of federal depository insurance and acceptable collateral securities and/or an acceptable surety bond. The collateral securities must be delivered to the District or placed with an independent trustee institution with safekeeping receipts delivered to the District. In accordance with State statutes pertaining to lawful collateralization of District deposits, safekeeping receipts are issued in the name of the depository with proper indication that the collateral securities are pledged by the depository to secure funds of the District.

Acceptable collateral securities include direct obligations of the United States of America (U.S.), bonds of any agency of the U.S. (except Farmers Home Administration Insured Notes), Bonds of the State of Texas or of any county, school district, city, or town of the State of Texas that have been rated A or better by Moody's Investors Service, Inc., as authorized by Chapter 2257 Collateral for Public Funds of the Government Code.

The District must approve all collateral securities prior to the security being pledged. The depository can change collateral securities pledged to secure District funds only upon obtaining the written approval of the District.

All demand and time deposits in the depository bank were entirely covered by federal depository insurance and by acceptable collateral securities held in the District's name by an agent of the District at year-end in accordance with provisions of the depository contract. Demand and time deposits at various banks held on behalf of different student groups were entirely covered by federal depository insurance at year-end.

At June 30, 2016, the District's carrying amount of deposits was \$11,568,041 and the bank balance was \$12,399,241. The District's bank balance at June 30, 2016, was entirely covered by FDIC insurance and pledged collateral held by the District's bank in the District's name. The deposits were collateralized in accordance with Texas Law.

Note 3 - Deposits (Cash) and Investments (continued)

A. Credit Risk

State law and the Mansfield ISD adopted Investment Policy restrict demand deposits, certificates of deposit (CD) and share certificates to those fully collateralized or FDIC insured from eligible depositories (banks and savings banks) doing business in Texas. Such CDs are limited to maturities under one (1) year and are further collateralized to 102% with pledged securities (and 110% if mortgage backed securities) with all collateral held by an independent custodian.

State law and the Mansfield ISD adopted Investment Policy limit repurchase agreements to banks and primary dealers, require an industry standard, written master repurchase agreement, require independent safekeeping of collateral, and require a 102% margin on collateral. Fully collateralized flex repurchase agreements are restricted by Policy to be used only with bond funds and are required to match the expected expenditure plan of the bond proceeds.

The Board of Trustees of the District has adopted a written investment policy (the "Investment Policy") regarding the investment of its funds as defined in the Public Funds Investment Act of 1995 (Chapter 2256, Texas Government Code). The Public Funds Investment Act requires an annual audit of investment practices. Audit procedures in this area, conducted as part of the audit, disclosed that in the area of investment practices, management reports, and establishment of appropriate policies, the District was in substantial compliance with the requirements of the Act. Additionally, the investments and investment practices of the District are in compliance with the Trustees' investment policies.

The District's Investment Policy emphasizes safety of principal and liquidity, addresses investment diversification, yield, and maturity, and addresses the quality and capability of investment personnel. The Investment Policy includes a list of authorized investment instruments.

The District is authorized to invest in the following investment instruments provided that they meet the guidelines of the Investment Policy:

1. Obligations of, or guaranteed by, governmental entities as permitted by Government Code 2256.009;
2. Certificates of deposit and share certificates as permitted by Government Code 2256.010;
3. Fully collateralized repurchase agreements permitted by Government Code 2256.011;
4. A securities lending program as permitted by Government Code 2256.0115;
5. Bankers' acceptances as permitted by Government Code 2256.012;
6. Commercial paper as permitted by Government Code 2256.013;
7. No-load money market mutual funds and no-load mutual funds as permitted by Government Code 2256.014;
8. A guaranteed investment contract as an investment vehicle for bond proceeds, provided it meets the criteria and eligibility requirements established by Government Code 2256.015;
9. Public funds investment pools as permitted by Government Code 2256.016;

Note 3 - Deposits (Cash) and Investments (continued)

A. Credit Risk (continued)

A summary of the District's cash and investments at June 30, 2016, is shown below:

Types of Investments	Fair Value	Weighted Average Maturity	Percentage of Investment Portfolio	Credit Quality Rating Standard & Poors
Municipal Bonds	\$ 1,241,860	0.37	0.81%	AAAm
Money Market Mutual Funds	47,344,462	7.69	30.75%	AAAm
Public Funds Investment Pools:				
LOGIC	\$ 42,692,553	10.54	27.73%	AAAm
TexSTAR	36,571,984	11.16	23.75%	AAAm
TexasCLASS	26,054,850	9.48	16.92%	AAAm
Governmental Activities	\$ 105,319,387		68.40%	
Fiduciary Funds (LOGIC)	68,438	10.54	0.04%	AAAm
	<u>\$ 105,387,825</u>		<u>68.45%</u>	
Total Investments	<u>\$ 153,974,147</u>		<u>100.00%</u>	
Cash and Cash Equivalents				
Governmental Activities	\$ 9,139,187		5.52%	
Business-Type Activities	1,553,576		0.94%	
Fiduciary Activities	875,278		0.53%	
Total Cash and Cash Equivalents	<u>\$ 11,568,041</u>		<u>6.99%</u>	
	<u>\$ 165,542,188</u>		<u>106.99%</u>	
Portfolio Weighted Average Maturity		39.23		

Investments' fair value measurements are as follows at June 30, 2016:

Investments	Fair Value	Fair Value Measurements Using		
		Level 1 Inputs	Level 2 Inputs	Level 3 Inputs
Municipal Bonds	\$ 1,241,860	\$ -	\$ 1,241,860	\$ -
	\$ 1,241,860	\$ -	\$ 1,241,860	\$ -

Note 3 - Deposits (Cash) and Investments (continued)

B. Credit Risk (continued)

Local government investment pools, as defined by state law (2256.016) and approved by adopted Policy are authorized. By State law, all local government pools are rated AAA or equivalent by at least one Nationally Recognized Statistical Rating Organization.

As of June 30, 2016,

- Fully collateralized or FDIC insured time and demand deposits represented 6.99% of the total portfolio,
- Municipal bonds rated A or better represented 0.75% of the total portfolio,
- Money market mutual funds rated A or better represented 28.60% of the total portfolio, and
- The remainder of the portfolio, 63.66%, was in local government investment pools rated AAAM.

On August 5, 2011 Standard and Poor's, one of three nationally recognized raters of US debt and securities, downgraded the rating of long-term US and government sponsored entities sovereign debt from AAA to AA+ for the first time since 1941 with a negative outlook. The two other national raters, Moody's and Fitch, continue to have the highest ratings, but also have the debt on their watch lists.

Concentration of Credit Risk

Mansfield ISD's adopted Investment Policy requires diversification on all authorized investment types which are monitored on at least a monthly basis.

As of June 30, 2016,

- Funds in one investment pool, LOGIC, represented 25.83% of the total portfolio,
- Funds in one investment pool, TexSTAR, represented 22.09% of the total portfolio,
- Funds in one investment pool, Texas Class, represented 15.74% of the total portfolio,
- Funds in money market funds rated A or better represented 28.60 % of the total portfolio, and
- The remainder of the portfolio, was invested in municipal bonds rated A or better and represented 0.75% of the total portfolio.

Interest Rate Risk

In order to limit interest and market rate risk from changes in interest rates, Mansfield ISD's adopted Investment Policy sets a maximum maturity of one year and a maximum weighted average maturity (WAM) of 180 days on any operating and debt service fund. A maximum weighted average maturity of 270 days is established, by Policy, for capital project funds. Maturities longer than one year are authorized provided legal limits are not exceeded.

As of June 30, 2016, the portfolio contained:

- No holdings that had a stated maturity beyond 699 days
- The dollar weighted average maturity of the total portfolio was 1 days.

Note 3 - Deposits (Cash) and Investments (continued)

C. Credit Risk (continued)

Local Government Investment Pools

As of June 30, 2016, the District's investments included the Local Government Investment Cooperative ("LOGIC"), Texas CLASS and TexSTAR local government investment pools. LOGIC, Texas CLASS and TexSTAR investment pools' investments are not evidenced by securities that exist in physical or book entry form and, accordingly, do not have custodial risk. LOGIC, Texas CLASS and TexSTAR are organized under the authority of the Interlocal Cooperation Act, chapter 791, of the Texas Government Code, and the Public Funds Investment Act, chapter 2256, of the Texas Government Code.

LOGIC, TexasCLASS and TexSTAR were created in April 1994, 1996 and April 2002, respectively, through contracts among their participating governmental units, and are governed by a board of directors to provide for the joint investments of participant's public funds and funds under their control. LOGIC's policy seeks to invest pooled assets in a manner that will provide for safety of principal, liquidity in accordance with the operating requirements of the participants, and a competitive rate of return by utilizing economies of scale and professional investment expertise. TexasCLASS's policy seeks to invest pooled assets in order to preserve principal, maintain the liquidity of the funds, and to maximize yield. Public Trust Advisor's LLC is the program administrator and Wells Fargo Bank Texas, N.A. is the custodian. TexSTAR's policy seeks to invest pooled assets in a manner that will provide for preservation and safety of principal and competitive investment returns while meeting the daily liquidity needs of the participants by utilizing economies of scale and professional investment expertise. JPMorgan Chase Bank, N.A. provides custody, fund accounting, and transfer agency services to both LOGIC and TexSTAR.

LOGIC's investment objectives are to seek preservation of principal, liquidity, and current income through investment in a diversified portfolio of short-term marketable securities. The portfolio's maximum final stated maturity is 397 days for fixed-rate securities and 24 months for variable rate notes. The portfolio will maintain a dollar-weighted average maturity to reset that does not exceed 60 days and a dollar-weighted average to final maturity of 90 days or less. LOGIC may invest in securities including: certain obligations of the United States or its agencies and instrumentalities; repurchase agreements; and SEC-registered money-market funds rated in the highest rating category by at least one nationally recognized statistical rating organization. It can also invest in commercial paper.

TexasCLASS's investment policy seeks to invest the pooled assets of its participants with four objectives in mind; to 1) invest only in legally permissible investments, 2) provide for safety of the participants assets, 3) provide liquidity to its participants, and 4) maximize income while remaining legal, safe, and liquid.

TexSTAR's portfolio is a government-repurchase agreement (REPO) pool, utilizing primarily U.S. Treasury securities, U.S. agency securities - both fixed and floating - and REPO collateralized obligations, the principal and interest of which are unconditionally guaranteed or insured by the full faith and credit of the United States or its agencies or its instrumentalities. The weighted average maturity to reset of the pool's assets is limited to 60 days or less and the weighted average to final maturity of the pool's assets is limited to 90 days or less.

Note 3 - Deposits (Cash) and Investments (continued)

D. Credit Risk (continued)

Local Government Investment Pools (continued)

In accordance with GASB Statement No. 79, Certain External Investment Pools and Pool Participants, the Local Government Investment Pools do not have any limitations and restrictions on withdrawals such as notice periods or maximum transaction amounts. These pools do not impose any liquidity fees or redemption gates.

Custodial Credit Risk

To control custody risk, State law and Mansfield ISD's adopted Investment Policy requires collateral for all time and demand deposits as well as repurchase agreements be transferred delivery versus payment and held by an independent party approved by the District and held in the District's name. The custodian is required to provide original safekeeping receipts and monthly reporting of positions and position descriptions including market value. Repurchase agreements and deposits must be collateralized to 102% (and 110% for mortgaged backed securities) and be executed under a written agreement. The counterparty of each type transaction is held contractually liable for monitoring and maintaining the required collateral margins on a daily basis.

As of June 30, 2016:

- The portfolio contained no certificates of deposit,
- The portfolio contained no flex repurchase agreements,
- All bank demand deposits were fully insured and collateralized. All pledged bank collateral for demand deposits was held by an independent institution outside the bank's holding company.

Note 4 - Property Taxes

Property taxes are levied by October 1 in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. The assessed value of the roll on January 1, 2016, upon which the levy for the 2016 fiscal year was based, was \$10,543,257,019.

The tax rates assessed for the ten months ended June 30, 2016 to finance general fund operations and the payment of principal and interest on general obligation long-term debt were \$1.04 and \$.4700 per \$100 of valuation, respectively, for a total of \$1.5100 per \$100 of valuation. Current tax collections for the year ended June 30, 2016 were 98.03% of the tax levy.

Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectible taxes within the General and Debt Service Funds are based upon historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

Note 5 - Interfund Receivables and Payables

Interfund balances at June 30, 2016, consisted of the following individual fund receivables and payables:

	Due from Other Funds	Due to Other Funds
Governmental Funds		
General Fund	\$ 3,107,899	\$ 2,270,372
Debt Service Fund	1,063,822	
Nonmajor Governmental Funds	749	1,902,084
Proprietary Funds		
Enterprise Funds		14
Total	\$ 4,172,470	\$ 4,172,470

Interfund balances result from the time lag between the dates reimbursable expenditures occur and payments between funds are made.

Note 6 - Capital Assets

The District records assets based on historical costs and calculates depreciation on capital assets in accordance with GASB Statement 34. The District's capitalization policy is to capitalize assets costing over \$5,000 and with a life expectancy of 1 year or more. Depreciation expense is allocated to functional categories based upon expenditures in the general fund.

Capital asset activity for the governmental activities of the District for the ten months ended June 30, 2016, are as follows:

	<u>Balance August 31, 2015</u>	<u>Additions</u>	<u>Retirements and Transfers</u>	<u>Balance June 30, 2016</u>
Governmental Activities:				
Capital assets, not being depreciated:

Note 6 - Capital Assets (continued)

Depreciation expense of the governmental activities was charged to the functions/programs as follows:

Function	Depreciation Expense
Governmental Activities:	
Instruction	\$ 20,737,062
Instructional resources and media services	1,457,658
Instructional leadership	31,415
School leadership	1,643,006
Guidance, counseling and evaluation services	307,868
Health services	172,783
Student transportation	1,621,016
Food Services	2,805,363
Extracurricular activities	1,658,713
General administration	219,905
Facilities maintenance and operations	367,556
Security and monitoring services	78,538
Data processing services	314,150
Total Governmental Activities	\$ 31,415,033

Note 7 - Long-Term Debt and Debt Service Requirements

Bonds and accreted interest are secured by ad valorem taxes levied against all taxable property and are serviced by the Debt Service Fund with an apportionment of the ad valorem tax levy. Interest rates on the bonds range from 1.75% to 5.25%. The principal amount of bond indebtedness cannot exceed 10% of the assessed valuation of taxable property in the District according to the last completed and approved ad valorem tax rolls of the District. At June 30, 2016, \$25,268,777 was available in the Debt Service Fund to service these bonds.

Note 7 - Long-Term Debt and Debt Service Requirements (continued)

The District issued \$45,275,000 of Unlimited Tax Refunding Bonds, Series 2015A dated October 1, 2015 and delivered November 10, 2015. Proceeds from the sales of the bonds were used to refund the District's Unlimited Tax School Building Bonds, Series 2010 for debt service savings and to pay the costs associated with the sale and issuance of the bonds. As a result, the refunded portions of the bonds are considered defeased and the liability has been removed from the general long-term debt of the District. The reacquisition price exceeded the net carrying amount of the old debt resulting in a loss on the refundings of \$1,817,242. These amounts are being netted against the new debt and amortized using the straight-line method over the remaining life of the refunded debt. These refundings were undertaken to reduce total debt service payments over the next 17 years by \$4,563,399 and resulted in economic gains/present value of \$3,083,842. The premiums of \$6,582,414 are being amortized over the life of the bonds using the straight-line method.

As of June 30, 2016, the District had no authorized but unissued general obligation bonds, but see Note 16 Subsequent Event.

At year end, \$265,775,000 of bonds outstanding are considered defeased and have not been included in the District's Statement of Net Position.

The following is a summary of changes in long-term obligations of the District for the ten months ended June 30, 2016:

	Balance September 1, 2015	Additions	Retirements/ Refundings	Balance June 30, 2016	Due Within One Year
Governmental Activities Bonds and notes payable: General obligation bonds	\$788,320,000	\$ 45,275,000	\$(69,180,000)	\$764,415,000	\$22,280,000
Premium on bond issuance	75,712,469	6,582,414	(13,610,921)	68,683,962	
Capital Leases Payable	5,434,140	642,440	(1,818,372)	4,258,208	1,925,923
Total Bonds and Notes Payable	<u>\$869,466,609</u>	<u>\$ 52,499,854</u>	<u>\$(84,609,293)</u>	<u>\$837,357,170</u>	<u>\$24,205,923</u>

Note 7 - Long-Term Debt and Debt Service Requirements (continued)

Annual requirements to amortize all bonded debt outstanding as of June 30, 2016 follow:

Year Ending June 30,	Principal	Interest	Totals
2017	\$ 22,280,000	\$ 33,480,585	\$ 55,760,585
2018	22,760,000	33,522,073	56,282,073
2019	23,815,000	33,608,123	57,423,123
2020	26,050,000	32,487,765	58,537,765
2021	28,325,000	31,239,236	59,564,236
2022-2026	181,735,000	133,307,079	315,042,079
2027-2031	205,345,000	87,850,169	293,195,169
2032-2036	89,680,000	52,216,850	141,896,850

Note 8 – Lease Obligations

A. Commitments under Operating Leases

The District's had no future minimum rental payments required under operating leases that have initial or remaining noncancelable lease terms in excess of one year as of June 30, 2016.

Rental expense for the ten months ended June 30, 2016 was \$215,244.

B. Commitments under Capital Leases

This year the District entered into a lease agreement as lessee for financing the acquisition of athletic scoreboards. The equipment has a ten-year estimated useful life. Depreciation was not recorded in the current year since the scoreboard was installed at the end of June. This lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of future minimum lease payments as of the inception date. Imputed interest rate for the lease is .49%. The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2016, were as follows:

Fiscal Year	Amount
2017	\$ 1,959,370
2018	1,959,370
2019	138,187
2020	138,187
2021	138,187
Total minimum lease payments	\$ 4,333,301
Less: amount representing interest	75,093
Present value of minimum lease payments	\$ 4,258,208

Note 9 - Unearned Revenue/Deferred Inflows of Resources

Deferred Revenue

Deferred revenue at year end represents assets that are not available for use by the District to liquidate current year liabilities.

Unearned Revenue

Governmental funds do not recognize revenue in connection with resources that have been received, but not yet earned. A summary of unearned revenue/deferred inflows by fund follows:

	General Fund	Debt Service Fund	Nonmajor Governmental Funds	Total
Unearned Revenues				
Miscellaneous Fees	\$ 915,424		\$ 100	\$ 915,524
Prepaid lunch cards			222,815	222,815
Deferred Inflows				
Property Taxes Receivable	3,410,306	1,924,731		5,335,037
Total	<u>\$ 4,325,730</u>	<u>\$1,924,731</u>	<u>\$ 222,915</u>	<u>\$ 6,473,376</u>

Property tax revenues are earned but are not available as of year-end; therefore, they are recognized as revenues in the government-wide financial statements and deferred in the fund level financial statements.

Note 10 - Committed Fund Balances

Committed fund balances as of June 30, 2016, is composed of the following:

	Total
Campus Activity Funds	\$ 1,481,507
Total	<u>\$ 1,481,507</u>

Note 11 - Employee Retirement Systems and Pension Plans

A. Plan Description

The Mansfield Independent School District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). TRS's defined benefit pension plan is established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

B. Pension Plan Fiduciary Net Position

Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at <http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR>; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

C. Benefits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes, including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs, can be granted by the Texas Legislature as noted in the Plan description above.

Note 11 - Employee Retirement Systems and Pension Plans (continued)

D. Contributions

Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements if, as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years or if the amortization period already exceeds 31 years, the period would be increased by such action.

Employee contribution rates are set in state statute, Texas Government Code 825.402. Senate Bill 1458 of the 83rd Texas Legislature amended Texas Government Code 825.402 for member contributions and established employee contribution rates for fiscal years 2014 thru 2017. The 83rd Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2014 and 2015. The 84th Legislature, GAA established the employer contribution rates for fiscal year 2016 and 2017.

	Contribution Rates	
	2016	2015
Member	7.20%	6.70%
Non-Employer Contributing Entity	6.80%	6.80%
Employers	6.80%	6.80%

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools, and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

	Measurement Year (2015)		10 Month Period (2016)	
	Contributions Required and Made		TRS Contributions	
Member (Employee)	\$	13,158,143	\$	12,372,467
Non-employer contributing agency (State)		10,023,870		8,374,537
District		5,732,519		5,152,264

Note 11 - Employee Retirement Systems and Pension Plans (continued)

D. Contributions (continued)

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate, times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year, reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities, or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, when employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.

E. Actuarial Assumptions

The total pension liability in the August 31, 2015 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date	August 31, 2015
Actuarial Cost Method	Individual Entry Age Normal
Asset Valuation Method	Market Value
Single Discount Rate	8.00%
Long-term expected Investment Rate of Return	8.00%
Inflation	2.5%
Salary Increases including inflation	3.5% to 9.5%
Payroll Growth Rate	2.5%
Benefit Changes during the year	None
Ad hoc post-employment benefit changes	None

The actuarial methods and assumptions are primarily based on a study of actual experience for the four year period ending August 31, 2014 and adopted on September 24, 2015.

Note 11 - Employee Retirement Systems and Pension Plans (continued)

F. Discount Rate

The discount rate used to measure the total pension liability was 8.0%. There was no change in the discount rate since the previous year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term rate of return on pension plan investments is 8%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2015, are summarized below:

Asset Class	Target Allocation	Real Return Geometric Basis	Long Term Expected Portfolio Real Rate of Return *
Global Equity			
1) U.S.	18%	4.6%	1.0%
2) Non-U.S. Developed	13%	5.1%	0.9%
3) Emerging Markets	9%	5.9%	0.7%
4) Directional Hedge Funds	4%	5.3%	0.1%
5) Private Equity	13%	7.0%	0.1%
Stable Value			
1) U.S. Treasuries	11%	0.7%	0.1%
2) Absolute Return	0%	1.8%	0.0%
3) Stable Value Hedge Funds	4%	3.0%	0.1%
4) Cash	1%	-0.2%	0.0%
Real Return			
1) Global Inflation Linked Bonds	3%	0.9%	0.0%
2) Real Assets	16%	5.1%	1.1%
3) Energy and Natural Resources	3%	6.6%	0.2%
4) Commodities	0%	1.2%	0.0%
Risk Parity			
1) Risk Parity	5%	6.7%	0.3%
2) Inflation Expectation			2.2%
3) Alpha			1.0%
Total	100%		8.7%

** The Expected Contribution to Returns incorporates the volatility drag resulting from the conversion between Arithmetic and Geometric mean returns.*

Note 11 - Employee Retirement Systems and Pension Plans (continued)

G. Discount Rate Sensitivity Analysis

The following schedule shows the impact of the Net Pension Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (8%) in measuring the 2014 Net Pension Liability.

	Discount Rate		
	1% Decrease (7%)	Current Rate (8%)	1% Increase (9%)
District's proportional share of the net pension liability	\$ 107,467,589	\$ 68,589,992	\$ 36,207,369

H. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2016, the District reported a liability of \$68,589,992 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the collective net pension liability	\$ 68,589,992
State's proportionate share that is associated with the District	119,628,598
Total	<u>\$ 188,218,590</u>

The net pension liability was measured as of August 31, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2014 thru August 31, 2015.

At August 31, 2015, the employer's proportion of the collective net pension liability was 0.1940% which was an increase of 0.0366% from its proportion measured as of August 31, 2014. The change in proportion was immaterial and therefore disregarded this year.

Note 11 - Employee Retirement Systems and Pension Plans (continued)

I. Change Since the Prior Actuarial Valuation

The following are changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period:

1. Economic Assumptions:

- a. The inflation assumption was decreased from 3.00% to 2.50%
- b. The ultimate merit assumption for long-service employees was decreased from 1.25% to 1.00%
- c. In accordance with the observed experience, there were small adjustments in the service-based promotional/longevity component of the salary scale.
- d. The payroll growth assumption was lowered from 3.50% to 2.50%
- e. The post-retirement mortality tables for non-disabled retirees were updated to reflect recent TRS member experience. Mortality rates will be assumed to continue to improve in the future using a fully generational approach and Scale BB.
- f. The post-retirement mortality tables for disabled retirees were updated to reflect recent TRS member experience. Mortality rates will be assumed to continue to improve in the future using a fully generational approach and Scale BB.
- g. The pre-retirement mortality tables for active employees were updated to use 90% of the recently published RP-2014 mortality table for active employees. Mortality rates will be assumed to continue to improve in the future using a fully generational approach and Scale BB.

2. Other Demographic Assumptions

- a. Previously, it was assumed 10% of all members who had contributed in the past 5 years to be an active member. This was an implicit rehire assumption because teachers have historically had a high incidence of terminating employment for a time and then returning to the workforce at a later date. This methodology was modified to add a more explicit valuation of the rehire incidence in the termination liabilities, and therefore these 10% are no longer being counted as active members.
- b. There were adjustments to the termination patterns for members consistent with experience and future expectations. The termination patterns were adjusted to reflect the rehire assumption. The timing of the termination decrement was also changed from the middle of the year to the beginning to match the actual pattern in the data.
- c. Small adjustments were made to the retirement patterns for members consistent with experience and future expectations.
- d. Small adjustments to the disability patterns were made for members consistent with experience and future expectations. Two separate patterns were created based on whether the member has 10 years of service or more.
- e. For members that become disabled in the future, it is assumed 20% of them will choose a 100% joint and survivor annuity option.

Note 11 - Employee Retirement Systems and Pension Plans (continued)

J. Actuarial Methods and Policies

The method of using celled data in the valuation process was changed to now using individual data records to allow for better reporting of some items, such as actuarial gains and losses by source. There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

For the ten months ended June 30, 2016, the District recognized pension expense of \$9,456,213 and revenue of \$17,045,150 for support provided by the State. At June 30, 2016, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflow of Resources	Deferred Inflow of Resources
Changes in proportional share of contributions	\$ 8,345,540	\$ (9,170)
Changes in Assumptions	2,274,017	(2,446,990)
Differences between expected and actual experience	541,043	(2,635,975)
Difference between projected and current investment earnings	7,249,544	
contributions after measurement date	5,152,264	
	<u>\$ 23,562,408</u>	<u>\$ (5,092,135)</u>

\$5,152,264 reported as deferred outflows of resources resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2017. The net amounts of the employer's balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Fiscal Year	Amount
2017	(2,129,465)
2018	(2,129,465)
2019	(2,129,465)
2020	(5,343,679)
2021	(1,086,897)
2022	(499,038)
	<u>\$ (13,318,009)</u>

Note 11 - Employee Retirement Systems and Pension Plans (continued)

K. TRS - Care Health Insurance Benefits for Retirees

Plan Description

The Mansfield Independent School District contributes to the Texas Public School Retired Employees Group Insurance Program (TRS-Care), a cost-sharing multiple-employer defined benefit postemployment health care plan administered by the Teacher Retirement System of Texas (TRS). TRS-Care Retired Plan provides health care coverage for certain persons (and their dependents) who retired under TRS. The statutory authority for the program is Texas Insurance Code, Chapter 1575. Section 1575 grants the TRS Board of Trustees the authority to establish and amend basic and optional group insurance coverage for participants. TRS issues a publicly available financial report that includes financial statements and required supplementary information for TRS-Care. That report may be obtained by writing to the TRS Communications Department, 1000 Red River Street, Austin, Texas 78701, or by calling the TRS Communications Department at 1-800-223-8778, or by downloading the report from the TRS Internet website, www.trs.state.tx.us, under the TRS Publications heading.

Note 11 - Employee Retirement Systems and Pension Plans (continued)

L. TRS - Care Health Insurance Benefits for Retirees

Funding Policy

Contribution requirements are not actuarially determined but are legally established each biennium by the Texas legislature. Texas Insurance Code, Sections 1575.202, 203, and 204 establish state, active employee, and public school contributions, respectively. The State of Texas and active public school employee contribution rates were 1.0% and .65% of public school payroll, respectively, with school districts contributing a percentage of payroll set at .55% for fiscal years 2014, 2013, and 2012. Per Texas Insurance Code, Chapter 1575, the public school contribution may not be less than .25% or greater than .75% of the salary of each active employee of the public school. For staff members funded by federal programs, the federal programs are required to contribute 1.0%.

Contributions made by the State, District, and staff members, for the years ended June 30, 2016, and August 31, 2015, and 2014 are as follows:

Fiscal Year	State TRS Contributions Made on Behalf of the District	District Required Contributions to TRS	Employee Contributions to TRS	District's Annual Covered Payroll
2016	\$ 1,642,822	\$ 1,034,302	\$ 1,116,968	\$ 171,834,329
2015	1,491,910	1,162,647	1,276,587	196,282,211
2014	1,626,046	1,119,088	1,237,674	190,403,757

For the current fiscal year and each of the past two years, the District's actual contributions were equal to 100 percent of the required contributions. The contributions made by the State on behalf of the District have been recorded in the governmental funds financial statements of the District as both state revenues and expenditures. These contributions are the legal responsibility of the State.

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003 established prescription drug coverage for Medicare beneficiaries know as Medicare Part D. Under Medicare Part D, TRS-Care receives retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. For the years ended June 30, 2016, and August 31, 2015, and 2014, the subsidy payments received by TRS-Care on-behalf of the District were \$791,860, \$823,746, and \$506,958, respectively. These payments are recorded as equal revenues and expenditures in the governmental funds financial statements of the District.

Note 12 - Risk Management

During the year ended June 30, 2016, employees of the District were covered by a health insurance plan ("the Plan"). The District paid premiums of \$250 per month per employee who worked at least 20 hours per week to the Plan; and employees, at their option, authorized payroll withholdings to pay contributions or premiums for dependents. All premiums were paid to a licensed insurer. The Plan was authorized by Article 3.51-2, Texas Insurance Code and was documented by contractual agreement.

As of September 1, 1998, the District has fully insured all workers' compensation claims. The current contract covers the period from September 1, 2015 through June 30, 2016. Premium payments are expensed as paid.

The District is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2016, the District purchased commercial insurance to cover general liabilities. There were no significant reductions in coverage in the past fiscal year, and there were no settlements exceeding insurance coverage for each of the past three fiscal years.

Note 13 - Litigation, Commitments and Contingencies

A. Litigation

The District is a party to various legal actions, none of which is believed by administration to have a material effect on the financial condition of the District. Accordingly, no provision for losses has been recorded in the accompanying financial statements for such contingencies.

B. Grant Programs

The District participates in numerous state and federal grant programs, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent the District has not complied with the rules and regulations governing the grants, refunds of any monies received may be required, and the collectability of any related receivable at June 30, 2016, may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying basic statements for such contingencies.

Note 13 - Litigation, Commitments and Contingencies (continued)

C. Construction

The District was obligated at June 30, 2016, under major contracts for construction, renovations, and repair of various facilities. The construction contract details associated with some of the major projects are as follows:

Project	Approved Construction Budget	Construction in Progress	Estimated Remaining Commitment
Student Nutrition	\$ 1,251,488	\$ 1,174,135	\$ 77,353
Ben Barber Career Tech	13,000,000	10,742,849	2,257,151
RLA Stadium	1,638,000	1,638,000	-
Timberview HS Ballfield Restoratio	457,197	23,300	433,897
Danny Griffin/6th Ave Fuel Stations	870,000	59,178	810,822
Charlotte Anderson	18,246,688	979,326	17,267,362
Gelnn Harmon Elementary	18,084,856	18,084,800	56
Renovations Project # 1	27,972,186	29,135,149	(1,162,963)
Renovations Project # 2	19,446,367	20,287,876	(841,509)
Renovations Pkg # 2B	756,197	36,171	720,026
Renovations Project # 3	10,097,746	9,263,058	834,688
Construction Wave # 1	24,524,421	23,586,835	937,586
Construction Wave # 2	3,812,882	3,119,588	693,294
	<u>140,158,028</u>	<u>118,130,265</u>	<u>22,027,763</u>

Note 14 - Shared Service Arrangement

The District participates in a Shared Service Arrangement (SSA) for students with auditory impairments attending the Regional Day School Program for the Deaf. The District does not account for revenues or expenditures of this program and does not disclose them in these financial statements. However, intergovernmental charges in a special revenue fund include payments to the fiscal agent for the District's share of project deficits. The District neither has a joint ownership interest in capital outlay purchased by the fiscal agent, Arlington ISD, nor does the District have a net equity interest in the fiscal agent. The fiscal agent is neither accumulating significant financial resources nor fiscal exigencies that would give rise to a future additional benefit or burden to Mansfield ISD. The fiscal agent manager is responsible for all financial activities of the SSA. Shared Service Arrangement expenditures of \$70,579 were attributable to Mansfield ISD participation.

Note 15 – Compensated Absences

Annual non-duty days (vacation days) are granted to 226-day non-professional and professional employees; however, non-duty days are required to be used during the current year. Five (5) non-duty days may be carried over, but must be used by December 1st. The number of days carried over to December 1st are not recorded in the financial statements since the dollar amount is insignificant.

Non-exempt staff may not carry more than 60 hours of compensatory time and must either use the time or be paid for the compensatory time at year end. No accrued compensatory time is carried forward to the next fiscal year.

Note 16 - Subsequent Event

The District issued \$34,715,000 of Unlimited Tax Refunding Bonds, Series 2016 dated October 26, 2016, and delivered October 26, 2016, to advance refund \$36,975,000 of outstanding Unlimited Tax School Building and Refunding Bonds, Series 2006. The proceeds were deposited in an irrevocable trust with an escrow agent to provide all future debt service payments on the refunded bonds.

Note 17 – Fiscal Year Change

On March 2, 2015, the Board of Trustees voted to change the District's fiscal year-end date from August 31st to June 30th. A ten month transition year began on September 1, 2015 and ended on June 30, 2016. Subsequent fiscal years will begin on July 1st and end on June 30th.

Contribution Deficiency (Excess)	\$ -	\$ -
 District's Covered Employee Payroll	 \$ 171,834,329	 \$ 196,397,727
 Contributions as a Percentage of Covered - Employee Payroll	 3.00%	 2.92%

*The amounts presented for the fiscal year were determined as of the Plan's fiscal year end, August 31 of the prior year.

During the fiscal year 2015, the District adopted GASB Statement No. 68 and 71. Ten years of data is not available.

During the fiscal year 2016, the District changed its fiscal year to June 30. This year represents ten months of data.

MANSFIELD INDEPENDENT SCHOOL DISTRICT
NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION

Exhibit G-4

Stewardship, Compliance, and Accountability

Budgetary Information

The Board adopts an “appropriated budget” on a basis consistent with GAAP for the General Fund, Debt Service Fund, and National School Breakfast and Lunch Program Fund (which is included in special revenue funds). At a minimum, the District is required to present the original and the final amended budgets for revenues and expenditures compared to actual revenues and expenditures for these three funds.

The following procedures are followed in establishing the budgetary data reflected in the general purpose financial statements:

- Prior to June 19th for a fiscal year start date of July 1, the District prepares a budget based on the incremental budgeting concept for the next succeeding fiscal year. The operating budget includes proposed expenditures and the means of financing them.
- After one or more budget workshops with the Board, a meeting is called for the purpose of adopting the proposed budget. At least ten days but not more than 30 days public notice of the meeting is required.
- Prior to June 30th for a fiscal year start date of July 1, the Board legally adopts the budget for the general fund, debt service fund, and food service fund.
- After the budgets for the above listed funds are approved, any amendment that causes an increase or decrease in a fund or functional spending category or total revenue or other resources major object category requires Board approval prior to the fact. These amendments are presented to the Board at its regular monthly meeting and/or special board meetings and are reflected in the official minutes. Because the District has a policy of careful budgetary control, several budgetary amendments were necessary throughout the year.
- Expenditure budgets are controlled at the expenditure functional and object level by the appropriate budget manager (principal, department director, or divisional administrator). Budget managers may authorize transfers within functional and organizational categories that do not affect the total functional and organizational appropriation. All budget appropriations lapse at year end.

Encumbrance accounting, under which purchase orders, contracts, and other commitments are recorded in order to reserve that portion of the applicable appropriation, is used in all governmental funds. Encumbrances outstanding at year end are commitments that do not constitute expenditures or liabilities, but are reported as assignments, commitments, or restrictions of fund balance depending on the fund type. Since appropriations lapse at the end of each year, outstanding encumbrances are appropriately provided for in the subsequent fiscal year's budget to provide for the liquidation of the prior commitments. At year end, the amount of encumbrances expected to be honored upon performance by the vendor in the next year were as follows:

Other Supplementary Information

(This page intentionally left blank.)

NONMAJOR GOVERNMENTAL FUNDS SPECIAL REVENUE FUNDS

The Special Revenue Funds are used to account for all federal, state and locally-funded grants and campus activity funds. These grants are awarded to the District with the purpose of accomplishing specific educational goals, described by the fund name:

- **ESEA, Title I, Part A – Basic:** supplemental service designed to accelerate the academic achievement of economically disadvantaged students, especially in the tested areas, to ensure that state standards are met on identified campuses.
- **IDEA, Part B – Formula:** salaries and supplies to aid children with disabilities with low reading achievement.
- **IDEA, Part B – Preschool:** aids preschool students with disabilities.
- **Child Nutrition Program:** federal reimbursement revenues originating from the United States Department of Agriculture and fees from child and adult meals.
- **Summer Feeding** – federal program for seamless school nutrition during the summer
- **Vocational Education – Basic:** funds are for the use of various vocationally-inclined students in regular, disadvantaged and disability classes.
- **ESEA, Title II, Part A – TPTR (Teacher and Principal Training and Recruiting):** supplements the professional development, retention and recruitment programs district-wide, specifically on high needs campuses.
- **ESEA, Title III, Part A – English Language Acquisition:** provides additional educational opportunities to supplemental programs for students of limited English proficiency and immigrant children by assisting the children to learn English and meet challenges.
- **Medicaid Administrative Claiming Program:** provides the district with the ability to receive reimbursement for outreach and case management.
- **Miscellaneous Federal Grants** – includes several federal grants designed to provide support for the development of the additional state assessments and standards and to support the administration of those assessments; grants included also provide funds for safety equipment.
- **Visually Impaired State Grant** – aids visually impaired students.
- **Advanced Placement Incentives** – enhancement of advanced placement programs on specific campuses based on student scores on advanced placement examinations.
- **Instructional Materials Allotment** – provides funds to purchase instructional materials technological equipment and technology-related services.
- **Read To Succeed** – provides funds generated through the sale of read to succeed license plates designed by a Texas student to purchase educational materials for public school libraries.
- **Campus Activity Funds** – proceeds from fundraising activities, vending sales, corporate and private donations benefiting students and staff of the campus.
- **Educational Foundation Awards** – provides innovative grant funds for district teachers.
- **Alternative P.E.** – provides funds for students electing an alternative physical education class for credit.
- **Miscellaneous Grants** – various grants provide support as designated.
- **Miscellaneous Donations** – various donations provide support as designated.
- **TCC Grant** – grants from Tarrant County College.
- **Lockheed Martin Grant** – provides support to various programs, but primarily career and technology projects.
- **iPad Summit** – local fund accounting for professional development program.

Statistical Section

(This page intentionally left blank.)

Statistical Section

The statistical section of the Mansfield Independent School District's Comprehensive Annual Financial Report presents detailed information (both of current and historical) as a context for understanding what the information in the financial statements, note disclosures, required supplementary information, and other supplementary information says about the District's economic condition and overall financial health. To assist financial statement users, this section is categorized as follows:

Financial Trends

These schedules contain trend information to assist in understanding how the District's financial performance and position have changed over time.

Revenue Capacity

These schedules contain information to help assess the factors affecting the District's most significant local revenue source, the property tax.

Debt Capacity

These schedules present information to assist in assessing the affordability of the District's current debt burden and its ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to aid in understanding the socioeconomic environment in which the District operates and to facilitate comparisons over time.

Operating Information

These schedules contain information about the District's operations and resources to assist in using the financial statement information to better understand and assess the District's economic condition.

MANSFIELD INDEPENDENT SCHOOL DISTRICT

(1) Net position decreased after the effect of a prior period adjustment for bond issuance costs with the implementation of GASB 65 and an increase of current year activities primarily due to an increase in property tax collections.

(2) District changed the fiscal year from August 31st to June 30th, causing FY16 to be a ten month transition year.

(1) The District implemented GASB 65 which requires bond issuance costs and fees to be expensed in the current period rather than capitalized and amortized.

(2) District changed the fiscal year from August 31st to June 30th, causing FY16 to be a ten month transition year.

- (1) Beginning with fiscal year 2011, GASB Statement No. 54 provides more clearly defined fund balance categories.
- (2) The increases/decreases in fund balances are explained in the governmental funds section of the Management's Discussion and Analysis on page 22.
- (3) Budget deficits are expected to decrease.
- (4) The decrease is mostly due to ongoing construction renovation projects.
- (5) The fluctuations were primarily due to the outlay of bond proceeds for capital projects.
- (6) District changed the fiscal year from August 31st to June 30th, causing FY16 to be a ten month transition year.

**Debt Service as a Percentage of Noncapital
Expenditures (2)**

13.34% 15.76% 16.43% 17.70%

- (1) Expenditures for instruction have risen over the past ten years due to fast student growth.
- (2) Noncapital expenditures consist of total expenditures less capital outlays noted in the reconciliation of governmental funds to governmental activities. Debt service includes principal and interest only.
- (3) Fluctuations are due to changes in annual construction contracts.
- (4) Due to a change in Texas coding requirements, other intergovernmental charges includes Tarrant County tax appraisal fees which were recorded in general administration in prior years.
- (5) Increase is due to an increase in students resulting in additional state aid.
- (6) District changed the fiscal year from August 31st to June 30th, causing FY16 to be a ten month transition year.

(1) The value is the appraised value at original certification and fluctuates due to property owner protests and preliminary appraisal values at the time of certification.

(2) Tax Rates are per \$100 of assessed value.

(3) District changed its fiscal year to June 30th during 2016

Source: Tarrant County (Texas) Appraisal District annually provides the District's tax office with appraised values for properties within the District's taxing authority. Appraised value equals actual value. Actual value less exemptions equals taxable value. Taxable value times the tax rate set by the District's Board of Trustees each fall equal the tax levy. The term "assessed value" means taxable value.

Johnson County	0.4480	0.4450	0.4450	0.4202
Total Other Entities	<u>\$ 4.0724</u>	<u>4.0694</u>	<u>\$ 4.0694</u>	<u>\$ 4.0280</u>
<u>District Direct Rates (1):</u>				
Maintenance & Operations	\$ 1.0400	1.0400	\$ 1.0400	\$ 1.0400
Debt Service	0.4700	0.4871	0.4871	0.5000
Total District Direct Rates	<u>\$ 1.5100</u>	<u>1.5271</u>	<u>\$ 1.5271</u>	<u>\$ 1.5400</u>

(1) The District voted its maintenance tax under former Article 2784e-1 which provided for a maximum maintenance tax rate of \$1.50 per \$100 assessed valuation. Effective with the 2006-07 fiscal year, State legislation limits the rate to the lesser of \$1.50 or the sum of the product of the "state compression percentage" multiplied by \$1.50 plus \$0.17 (contingent upon voter approval).

Section 45.003(b)(1) of the Texas Education Code provides for an unlimited tax rate for debt service if the District has met the ability to pay standards as outlined in Chapter 45 of the Texas Education Code.

(2) Includes Tarrant County, Tarrant County College, Tarrant Regional Water District, JPS Health Network, & Tarrant County Emer. Services District

<u>Direct:</u>			
Mansfield Independent School District (3)	768,030,768	100.0%	768,030,768
TOTAL OVERLAPPING AND DIRECT DEBT			\$ <u>975,636,981</u>

Ratio of Total Overlapping Debt and Direct Debt to Assessed Value for Fiscal Year Ended August 31, 2013 (**9.07%**

(1) Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District.
 The percentage of overlapping debt is estimated using taxable assessed property values. Percentages were estimated by determining the portion of the overlapping taxing authority's taxable assessed value that is within the District's boundaries and dividing it by the overlapping taxing authority's total taxable assessed value.

\$ 10,756,747,300

(2) Tarrant County includes Tarrant County, Tarrant County College and JPS Health Network

(3) Details regarding the District's outstanding debt can be found in the Notes to the Financial Statements. Outstanding debt is presented at par value which excludes accreted interest and premiums.

(4) Less than 0.01%

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS**

To The Board of Trustees
Mansfield Independent School District
Mansfield, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Mansfield Independent School District (the "District") as of and for the ten month period ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 11, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Dallas

Fort Worth

Houston

Board of Trustees
Mansfield Independent School District

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR
PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE
REQUIRED BY THE UNIFORM GUIDANCE**

To the Board of Trustees
Mansfield Independent School District
Mansfield, Texas

Report on Compliance for Each Major Federal Program

We have audited Mansfield Independent School District's (the "District") compliance with the types of compliance requirements described in the *Office of Management and Budget (OMB) Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the ten month period ended June 30, 2016. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* ("Uniform Guidance"). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Dallas

Fort Worth

Houston

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the ten month period ended June 30, 2016.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Medicaid SHARS			2,398,358

Note 1 Basis of Presentation

The District accounts for all awards under federal programs in the General Fund and certain Special Revenue Funds in accordance with the Texas Education Agency's *Financial Accountability System Resource Guide*. These programs are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e. revenues and other financing sources) and decreases (i.e. expenditures and other financing uses) in net current assets.

The modified accrual basis of accounting is used for these funds. This basis of accounting recognizes revenues in the accounting period in which they become susceptible to accrual, i.e., both measurable and available, and expenditures in the accounting period in which the liability is incurred, if measurable, except for certain compensated absences and claims and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources. Expenditures are recognized following the cost principles contained in OMB Uniform Guidance, wherein certain types of expenditures are not allowable or are limited to reimbursement. Pass-through entity identifying numbers are presented where available.

Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant, and, accordingly, when such funds are received, they are recorded as unearned revenues until earned. Generally, unused balances are returned to the grantor at the close of specified project periods. The District has not elected to use the 10% *de minimis* indirect cost rate under the Uniform Guidance.

Note 2 - Basis of Presentation

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal grant activity of the District under programs of the federal government for the year ended June 30, 2016. The information in this schedule is presented in accordance with the requirements of the Office of Management and Budget (OMB) Uniform Guidance (2 CFR 200). Because the schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position or cash flows of the District.

Note 3 - Reconciliation of Basic Financial Statements

The following is a reconciliation of expenditures of federal awards program per the Schedule of Expenditures of Federal Awards and expenditures reported on Exhibit C-3:

Total shown on Schedule of Expenditures of Federal Awards
Federal Revenue Accounted for in the General Fund:
eRate
Medicaid SHARS
Prior Year Adjustment for Title VI Summer School LEP
Reconciled balance
